The lurid language the other day, which caused some excitement, gives place to this harmless paragraph:

It (the freedmen's) is a cause that appeals to us with particular insistence at this time because of the development of the mob spirit in our Christian land. We join heartily with our fellow citizens and fellow Christians of all sections in the horror of those dreadful manifestations and we believe it is an hour for our church to pledge herself afresh in sacrifice and service to the redemption of the negro from his sufferings and his sins."

these words. Rev. Dr. Meldrum of St. Paul, chairman of the standing committee on the board of Sabbath school affairs, made a highly eulogistic report at the afternoon session, in which he called attention to many statistics previously given in the board's report. During the year books to a value of \$127,637.38 had been sold and \$226,750.01 had been realized from periodicals. The net profits were \$19,-175.86, of which two-thirds had been placed to the credit of the Sabbath school department.

"So far as possible," recommends the report of the committee, "Presbyterian money should be spent for the spreading of the distinct Presbyter an gospel. This is nowise in onsistent with the truest and most gen rous Catholicity."

The twentiern century movement, which contemplates signalizing the opening of the new century with the addition of 500,000 children to the Sabbath schools, was approved. Dr. E. R. Craven, secretary, made an appeal to

the assembly for help. Rev. W. H. Hubbard of Auburn, N Y., editor of The Assembly Herald, which was discontinued by decree of the assembly on Dec. 31, made his final report on that publication, showing that it has ceased to exist with a balance on the right side. Dr. Knox of a special committee, which had been running the new Assembly Herald, presented his report and recommended that the periodical be managed hereafter by a committee of three, one member to be appointed by the foreign missions board, another by the home missions and the third by the six other boards. In recognition of Dr. Hubbard's faithful services the balance was voted to him. Dr. Knox, however, compared the old and new Heralds in a way which did not please Dr. Hubbard. The latter begged the assembly for a chance to reply, and the committee insisted that they must have a chance to answer. The prospect promised a lively controversy, but it was postponed until today. U. P. GENERAL ASSEMBLY.

Sermon Preached by the Retiring Moderator—Reports on Home Missions and Church Extension.

PHILADELPHIA, May 25.—The fortyfirst general assembly of the United Presbyterian church of North America began its sessions here. The sermon was preached by the retiring moderator, Rev. Dr. H. C. Ferguson. The report of the boards of church extension and home missions were presented.

The report on missions said in part: Twenty-eight stations have been in the special care of the board. All but The report was complimentary and for of these—Canton, Detroit, Lincoln and Tacoma-whose terms as special missions now expire, remain in this relation to the board and their requests for the coming year have been acted upon.

The woman's board continues to bear the entire cost of the work among the Warm Spring Indians, and expended during the past year \$2,910.

Of 210 stations for which aid has been asked for the coming year, 126 have been brought before the board sliding scale and 15-year limit, with requests for their exemption from the Mexico, where the church now has 4,000 | operation of one or both. In 107 instances the board recommends exemption to a greater or less extent.

The total receipts of the board for the year amounts to \$83,839.90 and the total expenditure \$83,172.08. In the direct contributions there was an increase of \$7,214.49 over the year 1898. A balance of \$667.82 is available for current needs, all necessary outlay having been met, including the return to permanent funds of \$8,325.90 borrowed.

The report on church extension said in part:

The total receipts for the year from all sources, including the balance on hand May 1, 1898, were \$83,535.83, and the total disbursements, \$67,031.26, leaving a balance May 1, 1899, of \$16,504.57, of which \$13,567.66 belongs to the pervided all stood by their pledges and promises, and the more than \$40,000 manent fund, leaving a balance for new work of \$2,936,91 work of \$2,936.91.

Of the 902 congregations in America, only 703 report themselves as contributing to church extension work. The general assembly is asked to consider this subject and take such action as may appear wise.

The outlook for the coming year is that the demand for aid will be very much greater than in the past. The general assembly is therefore asked to appropriate for this work at least \$50,000.

BISHOP FOSS ONE OF SPEAKERS.

President Jesup Presided Over the Big Opening Meeting-Praise For Queen Victoria and a Message Sent to Her. Ten Large Meetings Last Night.

PHILADELPHIA, May 25.—The celebration of the seventy-fifth anniversary of the American Sunday School union was begun here Wednesday and continued today.

The spacious academy was filled when the exercises were begun. On the stage were prominent preachers, who represented many denominations. One of the features of the decorations was a large map of the United States erected on the stage, which showed the percentage of the population of each state of the Union enrolled in the Sunday schools. The little state of Delaware headed the list with 28 per cent. Maryland came next, with 25 per cent, and Oregon third, with 24 per cent. New Mexico came last, with but three-tenths of 1 per cent of her population connected with Sunday schools.

The meeting was presided over by Morris K. Jesup of New York, president of the union. After the choir opened the exercises by singing the anthem, "Glorious Is Thy Name," President Jesup delivered the address of welcome. He dwelt at length on the work of the organization during the past 75 years and told how the union has kept pace with the growth of the country. He concluded by saying that the destinies of the nation rest upon the youth of today and that it was the duty of the adults to look after the education and moral training of the young. President Jesup was followed by the Rev. George Dana Boardman, D. D., of this city, who delivored an eloquent prayer, asking for the Divine blessing on Queen Victoria, who celebrated her 80th birthday, and upon

the peace envoys at The Hague. Addresses were also made by Bishop Cyrus D. Foss, D. D., of the Methodist Episcopal diocese of Pennsylvania; Rev. Coroner's Jury Made a Decision Regard-Henry Varley of England, Rev. Floyd W. Tompkins, D. D., rector of Trinity Protestant Episcopal church of this city; Rufus M. Jones, representing the Society of Friends, and Rev. Russell H. Conwell of Grace Baptist church of this city. The last named made an eloquent address, in which he eulogized Queen Victoria as a good type of the Christian woman. A message of congratulation was sent to the queen.

Ten large meetings were held in different parts of the city last night.

Rev. Dr. Stewart Accepted.

HARRISBURG, May 25.—Rev. Dr. ceedings of the National Baptist con- | George B. Stewart of this city announced his acceptance of the presidency of the Auburn Theological seminary of Auburn, N. Y., to which he was unanimously elected two weeks ago. Dr. Stewart asked the Market Square Presbyterian congregation to join with him in requesting the Carlisle presbytery to sever the pastoral relations. The congregation will act upon Dr. Stewart's request at a meeting to be held later.

Foster Denies Heresy.

DENVER, May 25.—The alleged heresy of Rev. Dr. Foster, who occupies the chair of systematic theology in the theological seminary at Lebanon, Tenn., received attention in the Cumberland Presbyterian general assembly. Dr. Foster said he had been misunderstood, and that he will revise the subject in his book and make himself clearer. The committee on education embodied his promise in its reports.

ANTI-TRUSTS THE ISSUE.

Democrats Intend to Make It the Rallying Cry-Meeting In St. Louis Today. Bryan the Candidate.

St. Louis, May 25.—Ways, means and methods of conducting the next presidential campaign was being considered by the Democratic conference at the Planters' hotel today. It is not likely that much matter will come before the meeting and no definite action may be taken.

It is generally understood that "antitrust" will be the rallying cry for the Democracy with "anti-imperialism" a close second and "16 to 1" not entirely discarded but kept in third place. As one of the leaders of the party expressed it, "anti-trust" and "anti-im-perialism" will be the salt and pepper with which we will flavor "16 to 1.

There have been countless rumors floating around to the effect that silver is to be entirely discarded and that, as far as Missouri is concerned, Bryan is to be shelved in favor of William J. Stone of Missouri. This Mr. Stone positively denied, saying that he would go into the next convention to work for Bryan and that the Missouri delegation would vote solidly for Mr. Bryan's nom-

Stoneware Men Got Together and Formed a Combine-The Capital Stock \$2,500,000.

COLUMBUS, May 25.—At a secret meeting of the stoneware potteries east of the Mississippi river a consolidation was effected. The combine will be incorporated under the laws of Delaware, with a capital stock of \$2,500,000. It will be known as the American Stoneware company. Thirty representatives attended the meeting. R. H. Kent of Akron presided and will probably be the president of the new company, which will have its headquarters at at Akron.

Judge Grosscup Better.

ASHLAND, May 25 .- United States Judge P. S. Grosscup of Chicago, who has been ill with fever for the past five weeks-the last three of which he has been especially serious at his father's home here—is now announced by his physicians to be safely over the greater part of his troubles. It is believed, that with careful nursing, he will soon re-

Asked to Be Co-Pastor.

Youngstown, May 25.—At a congregational meeting of the First Presbyterian church of this city a unanimous call was extended to the Rev. W. H. Hudnut of Brooklyn to become co-pastor with the venerable pastor, Dr. D. H. Evans, who requires a rest and contemplates a long visit abroad.

Marie Burroughs Indicted.

Toledo, May 25.-Marie M. Burroughs, who recently filed suits amounting to \$1,000,000 for damages against the cities of Toledo and Fremont, was indicted by the grand jury for perjury. The case came up in connection with her recent suits.

The proposed corporation was capitalized at \$100,000, which amount, it was said, will be increased to \$250,-000,000.

Wants to Entertain the President.

Washington, May 25.—Representative Gillette of Massachusetts called on the president to arrange for a reception in Springfield while on his way to Mt. Holyoke college to attend the graduation of his niece, Miss Grace McKinley. The president expressed his pleasure at the invitation and said he would be glad to meet the people of Springfield. It was his desire to have nothing so formal as a banquet, as Mr. Gillette had suggested, but simply to meet the people at a reception.

THE FILIPINO LOSS WAS HEAVY.

MacArthur and Funston Were In Command-Lawton's Rear Guard Had Hot Fighting With Rebels - Party Under Major Bell Killed 20.

MANILA, May 25 .- Generals MacArthur and Funston, with the Kansas and Montana regiments and Utah bat-tery, dispersed about 800 insurgents, who were entrenched on the railroad beyond San Fernando, near Santa Arita.

The American scouts were fired upon from the trenches unexpectedly and withdrew. The firing was heard at San Fernando and General MacArthur assembled his troops and marched quickly after the scouts. The Montana regiment flanked the trenches on the left and the Kansas regiment attacked the enemy's right flank, General Funston leading the charge at the double quick.

The insurgent loss, it was said, was large. Many prisoners were captured and it was reported that 20 Americans were wounded.

It developed Wednesday that five men, instead of one, were drowned by the sinking of a craft loaded with soldiers of the Fourteenth regiment at the

Pasig ferry. Twenty insurgents were killed and 40 were wounded in the engagement with Major Bell and a reconnoitering party, consisting of two companies of the Fourth cavalry, in the vicinity of Santa

Arita Tuesday. General Lawton with most of his troops arrived at Malolos. His expedition marched 120 miles in 20 days, had 22 fights, captured 28 towns, destroyed 300,000 bushels of rice and only lost six men killed and 31 wounded. On the other hand General Lawton estimated that his troops killed 400 insurgents

and wounded double that number. The Oregon and Mihnesota regiments were returning to Manila. The Spanish newspaper, Oceania, was suppressed for publishing seditions editorials.

Two companies of the Third infantry and two companies of the Twenty-second infantry, forming General Lawton's rear guard, returning from San Miguel to Balinag Tuesday, escorting a signal party which was picking up wire laid with General Lawton's expedition, found that the insurgents had reoccupied the country and hard fighting followed. The troops completed their work. One American was killed and 14 were wounded. The troops captured 20 prisoners and 30 rifles.

DEWEY NOT A SICK MAN.

Former Surgeon of Olympia Declared He Was Merely Effected by the Tropical Climate.

WASHINGTON, May 25 .- Surgeon J. E, Page of Admiral Dewey's flagship, the Olympia, arrived here on leave. Surgeon Page was on the flagship since Dewey took command, seeing him daily and having general charge of medical affairs, so that he was in a position to give an intelligent view of the admiral's health and general condition. He said

in part:
"Admiral Dewey is in no sense a sick man, but is as well as any man could be after spending a year in the tropics. I was on the Olympia at the time he came aboard, and from that time to the present, I do not believe there has been any appreciable change in his appearance, weight or general condition. Anyone who thinks he is a physical wreck should hear the admiral on the quarterdeck when he gets aroused. He is the gentlest man living, and yet he expects exery man to do his exact duty and when there is any shortcoming the admiral will be heard in no feeble or sickly manner. Of course, everyone in the fleet has suffered in health more or less during the year, owing to the terrific and long-maintained heat and the enervating climate.

"In that way Dewey suffered with all the rust of us."

Surgeon Page was asked if Admiral Dewey's responsibilities had not weighed heavily on him. He said in part:

"I think not; and it will be found that he has just as much nerve as the morning he fought the battle of Manila bay. He is a man who carries responsibility lightly, and does not let it break him down.'

Asked if he had prescribed for Dewey of late, Surgeon Page said:

"No, he has no need for prestriptions. During the last year he has not once asked for a prescription or taken medical advice except in a casual way. If he wants anything he sends down to the ship's apothecary and gets it. His habits are so regular that he needs little or no medicine. His smoking and drinking are in perfect moderation. He eats well and sleeps well, and it is one of the recognized offenses on board ship to tramp heavily over the admiral's cabin after he has retired."

A Postmaster Appointed.

WASHINGTON, May 25.-George H. Hornickel was appointed postmaster at Morgan, Allegheny county.

Foster Denies Heresy.

DENVER, May 25.—The alleged heresy of Rev. Dr. Foster, who occupies the chair of systematic theology in the theological seminary at Lebanon, Tenn., received attention in the Cumberland Presbyterian general assembly. Dr. Foster said he had been misunderstood, and that he will revise the subject in his book and make himself clearer. The committee on education embodied his promise in its reports.

ANTI-TRUSTS THE ISSUE.

Democrats Intend to Make It the Rallying Cry-Meeting In St. Louis Today. Bryan the Candidate.

St. Louis, May 25.-Ways, means and methods of conducting the next presidential campaign was being considered by the Democratic conference at the Planters' hotel today. It is not likely that much matter will come before the meeting and no definite action may be taken.

It is generally understood that "antitrust" will be the rallying cry for the Democracy with "anti-imperialism" a close second and "16 to 1" not entirely discarded but kept in third place. As one of the leaders of the party ex-pressed it, "anti-trust" and "anti-im-perialism" will be the salt and pepper with which we will flavor "16 to 1.

There have been countless rumors floating around to the effect that silver is to be entirely discarded and that, as far as Missouri is concerned, Bryan is to be shelved in favor of William J. from the trenches unexpectedly and withdrew. The firing was heard at San Fernando and General MacArthur assembled his troops and marched quickly after the scouts. The Montana regiment flanked the trenches on the left and the Kansas regiment attacked the enemy's right flank, General Funston leading the charge at the double quick.

The insurgent loss, it was said, was large. Many prisoners were captured and it was reported that 20 Americans were wounded.

It developed Wednesday that five men, instead of one, were drowned by the sinking of a craft loaded with soldiers of the Fourteenth regiment at the Pasig ferry.

Twenty insurgents were killed and 40 were wounded in the engagement with Major Bell and a reconnoitering party, consisting of two companies of the Fourth cavalry, in the vicinity of Santa Arita Tuesday.

General Lawton with most of his troops arrived at Malolos. His expedition marched 120 miles in 20 days, had 22 fights, captured 28 towns, destroyed 300,000 bushels of rice and only lost six men killed and 31 wounded. On the other hand General Lawton estimated that his troops killed 400 insurgents and wounded double that number.

The Oregon and Mihnesota regiments were returning to Manila. The Spanish newspaper, Oceania, was suppressed for

publishing seditious editorials.

Two companies of the Third infantry and two companies of the Twenty-second infantry, forming General Lawton's rear guard, returning from San Miguel to Balinag Tuesday, escorting a signal party which was picking up wire laid with General Lawton's expedition, found that the insurgents had reoccupied the country and hard fighting lowed. The troops completed their work. One American was killed and 14 were wounded. The troops captured 20 prisoners and 30 rifles.

DEWEY NOT A SICK MAN.

Former Surgeon of Olympia Declared He Was Merely Effected by the Tropical Climate.

WASHINGTON, May 25.—Surgeon J. E. Page of Admiral Dewey's flagship, the Olympia, arrived here on leave. Surgeon Page was on the flagship since Dewey took command, seeing him daily and having general charge of medical affairs, so that he was in a position to give an intelligent view of the admiral's health and general condition. He said

"Admiral Dewey is in no sense a sick man, but is as well as any man could be after spending a year in the tropics. was on the Olympia at the time he came aboard, and from that time to the present, I do not believe there has been any appreciable change in his appearance, weight or general condition. Anyone who thinks he is a physical wreck should hear the admiral on the quarterdeck when he gets aroused. He is the gentlest man living, and yet he expects exery man to do his exact duty and when there is any shortcoming the admiral will be heard in no feeble or sickly manner. Of course, everyone in the fleet has suffered in health more or less during the year, owing to the terrific and long-maintained heat and the enervating climate.

"In that way Dewey suffered with all the rust of us.

Surgeon Page was asked if Admiral Dewey's responsibilities had not weighed heavily on him. He said in part:

"I think not; and it will be found that he has just as much nerve as the morning he fought the battle of Manila bay. He is a man who carries responsibility lightly, and does not let it

break him down." Asked if he had prescribed for Dewey of late, Surgeon Page said:

"No, he has no need for prestriptions. During the last year he has not once asked for a prescription or taken medical advice except in a casual way. If he wants anything he sends down to the ship's apothecary and gets it. His habits are so regular that he needs little or no medicine. His smoking and drinking are in perfect moderation. He eats well and sleeps well, and it is one of the recognized offenses on board ship to tramp heavily over the admiral's cabin after he has retired."

Report to the Assembly This Afternoon.

AGED MINISTER'S CONTRIBUTION.

Mounted the Tribune and Gave a \$1,000 Draft For Freedmen's Aid-Several Missionaries Spoke-Message Sent to the Queen-Some of the Proceedings.

MINNEAPOLIS, May 25 .- The Presbyterian assembly sent a congratulatory cablegram to Queen Victoria on her 80th birthday.

Dr. Mathias L. Haines of Indiana, chairman of the foreign missions committee, read the report of his committee on the board of foreign missions. The report was complimentary and stimulating to interest in foreign missions. It recommended that the retiring members of the board be elected.

Rev. Dr. Arthur J. Brown, corresponding secretary, addressed the assembly in behalf of the board and its

Several missionaries addressed the assembly. Rev. McNair spoke for Japan. The mikado's kingdom, he declared, was still in the darkness of heathenism,

ated its materialism.

Rev. C. Scott Williams spoke for communicants.

The elders of the church south, sitting in assembly at Richmond, replied as folby the elders of the church north:

"Replying to your salutation, we

ev. Meed Holmes of Rockford, Ills., aged and bent, climbed upon the tribnne in the Presbyterian general assembly and extracted from a worn little were terribly low, he said, and money promised was actually delivered.

Then, while the assembly applauded loudly, the aged man painfully clambered down. Dr. Charles Herr presented the amended report of the freedmen's committee to lynch law outrages in the | this subject and take such action as may south.

The lurid language the other day, which caused some excitement, gives place to this harmless paragraph:

It (the freedmen's) is a cause that appeals to us with particular insistence at this time because of the development of the mob spirit in our Christian land. We join heartily with our fellow citizens and fellow Christians of all sections in the horror of those dreadful manifestations and we believe it is an hour for our church to pledge herself afresh in sacrifice and service to the redemption of the negro from his sufferings and his sins."

Nobody had any fault to find with these words.

Rev. Dr. Meldrum of St. Paul, chairman of the standing committee on the board of Sabbath school affairs, made a highly eulogistic report at the afternoon session, in which he called attention to many statistics previously given in the board's report. During the year books to a value of \$127,637.38 had been sold and \$226,750.01 had been realized from periodicals. The net profits were \$19,-175.86, of which two-thirds had been placed to the credit of the Sabbath school department.

"So far as possible," recommends the report of the committee, "Presbyterian money should be spent for the spreading of the distinct Presbyter an gospei. This is nowise in onsistent with the truest and most generous Catholicity.'

The twentiern century movement, which contemplates signalizing the opening of the new century with the addition of 500,000 children to the Sabbath schools, was approved. Dr. E. R. Craven, secretary, made an appeal to the assembly for help.

Rev. W. H. Hubbard of Auburn, N Y., editor of The Assembly Herald, which was discontinued by decree of the assembly on Dec. 31, made his final report on that publication, showing that it has ceased to exist with a balance on the right side. Dr. Knox of a special committee, which had been running the new Assembly Herald, presented his report and recommended that the periodical be managed hereafter by a committee of three, one member to be appointed by the foreign missions board, another by the home missions and the third by the six other boards. In recognition of Dr. Hubbard's faithful services the balance was voted to him. Dr. Knox, however, compared the old and new Heralds in a way which did not please Dr. Hubbard. The latter begged the assembly for a chance to reply, and the committee insisted that they must have a chance to answer. The prospect promised a lively controversy, but it was postponed until today. The developments showed that a strong element Wanted the board of publication to take charge of the official organ, and that

Women's Baptist Mission Society Com menced Work-Reports Made.

SAN FRANCISCO, May 25 .- The proceedings of the National Baptist conventions commenced with the opening session of the Women's Baptist Mission

The corresponding secretary, Miss Mary G. Burdette, made a report. Under the auspices of the general society 114 missionaries have labored during the year, their work being prosecuted at 90 different stations in 37 states and territories of our country and two states in Mexico. The number of missionaries in the field at the close of the year was 124. Religious visits during the year numbered 80,938, averaging over 700 visits to each worker. Reference was also made to the active preparations to advance the work in Cuba and the new American possessions in Porto Rico and the Philippines. The total receipts of the year were \$60,388.95 and the disbursements were \$66,465.69, thus absorbing the balance of \$4,388 in the previous year and \$2,000 borrowed. Goods, clothing and supplies were sent to missionaries dur-

ing the year valved at \$10,173.48. Mrs. R. D. MacArthur of New York presented the report of the executive board or the Woman's Home Mission society. The report took a hopeful view of the field, and suggested that not less than \$75,000 be raised for the work in

Seventy-Fifth Anniversary Celebrated at Philadelphia.

BISHOP FOSS ONE OF SPEAKERS.

President Jesup Presided Over the Big Opening Meeting-Praise For Queen Victoria and a Message Sent to Her. Ten Large Meetings Last Night.

PHILADELPHIA, May 25 .- The celebration of the seventy-fifth anniversary of the American Sunday School union was begun here Wednesday and continued today.

The spacious academy was filled when the exercises were begun. On the stage were prominent preachers, who represented many denominations. One of the features of the decorations was a large map of the United States erected on the stage, which showed the percentage of the population of each state of the Union enrolled in the Sunday schools. The little state of Delaware headed the list with 28 per cent. Maryland came next, with 25 per cent, and Oregon third, with 24 per cent. New Mexico came last, with but three-tenths of 1 per cent of her population connected with Sunday schools.

The meeting was presided over by Morris K. Jesup of New York, president of the union. After the choir opened the exercises by singing the anthem, "Glorious Is Thy Name," President Jesup delivered the address of welcome. He dwelt at length on the work of the organization during the past 75 years and told how the union has kept pace with the growth of the country. He concluded by saying that the destinies of the nation rest upon the youth of today and that it was the duty of the adults to look after the education and moral training of the young. President Jesup was followed by the Rev. George Dana Boardman, D. A sensational story was brought to light yesterday afternoon when the fact became known that a prominent man living in the west part of East End attempted suicide Tuesday night. What caused him to act so is a matter that is not learned, as the individual himself is the only person who knows the true story.

Early Tuesday evening the man and his wife had a heated argument on Pennsylvania avenue that was heard by no few people. She was going east and he coming west. When they met the woman asked where he had been, and upon being told called him some hard names. He started to retrace his steps and when she asked him again where he was going he told her to the clay mine. She gathered a few stones and threw at the man, none of which struck him. He went in the mine, and as he did not come out soon the woman asked several men to search the place for him. This they did and he returned to the mouth of the mine with them. The couple then went to their home, and matters have been extremely quiet since that time.

It is said the man has not been employed for several months, and although willing to work, has not been able to obtain employment. The affair caused much talk when the actions of the man became known, and as he is failing in health, his friends fear he will do himself some harm.

MADE MONEY FAST.

Said He Would Build Houses and Then Flimmed Several People.

Some time ago a well dressed individual, claiming to represent a building association, made his appearance in East End and proceeded to make himself acquainted with all the business men of that part of the city. He made his scheme known and, as he represented the matter, his company would soon commence the erection of at least 20 houses in that part of the city, the majority of them to be located in Helana. After everything had been arranged he went to a prominent contractor in Helana and told him he would like to engage a boss carpenter to look after Helana and told him he would like to the work. The necessary arrangements were soon made, and as the stranger was out of car fare at that time he asked the contractor to let him have a few dollars until tomorrow. The money was handed over and nothing has been seen of him since. He then went to a prominent grocery and worked the C. E. Allen racket. He told the same story as he did to the contractor, and after purchasing some groceries had them delivered. As yet no money has been collected. The gentleman worked a firm in the city for a bill of goods and money to the value of \$95, and although attempts have been made to locate the individual they have not been successful up to the present time.

Pennsylvania Avenue.

A large force of men are engaged in grading Pennsylvania avenue previous to the work of paving the street. The street car line is at least two feet above the grade at present, but will be lowered next week. Contractor Rinehart yesterday commenced to haul brick to the street, and within a few days paving will be commenced. The curb in front of the school house has been reset, and the paving will be commenced at that point and the work will be continued east.

Heavy Mail.

Yesterday Postmaster Baird sent out two sacks of first class mail. Each sack was full and the combined weight was 74 pounds. This is the largest amount of mail that has been sent out from the postoffice for many months.

SEVEN SUE THE CITY

Street Property Avondale Owners Ask Court

TO AWARD THEM \$4,600 DAMAGES

From the City For Losses Sustained Through the City's Changing the Grade of That Thoroughfare--Claim the Cut Was an Unreasonable and Improper One.

LISBON, May 25.—[Special]—Seven petitions were filed in common pleas court yesterday afternoon in all of which the city of East Liverpool is made defendant by reason of alleged damages to property resulting from changing the grade of Avondale street. The aggregate amount of damages asked is \$4,600. The petitions were all similar, and the owners of the property allege that in 1886 Avondale street was made a public highway, and that on the premises buildings were erected and improvements made with ordinary care and with reference to a future reasonable and proper grade of the street. In 1898 the city changed the grade and reconstructed the street, at a grade much lower than before, i. e. 25 feet. Access to the property has been greatly impaired and the value of the lots depreciated and retaining walls had to be built. The petition and amount of damages asked by each are as follows: Mary S. Collins, owner of lot 1671, \$2,000; Frederick Wilson, lot 1675, \$600; Blair Sharp, lot 1677, \$500; Albert G. Allison, lot 1680, \$500; Zadock Fowler, lot 1682 \$350; Jas. F. McGonigle, lot 1676, \$350 W. H. Brooks, 1681, \$300.

Selina Chamberlain Wants \$300 Damages From E. T. Farr, of Middleton.

LISBON, May 25.- [Special]-Selina Chamberlain, of St. Clair township, has brought suit against Emmet E Farr as F. KAYS AND ED MORLEY FINED constable and T. F. Shaffer and H. F. Huston as his sureties, asking a judgment of \$300. Plaintiff says that on Aug. 20, 1897, under a writ of replevin, the constable took possession of various articles of household furniture claimed by the plaintiff as her property. She executed a redelivery bond which was approved by the justice, but the constable failed and refused to return the property. Judgment was taken by default against the plaintiff who was the defendant in the case pending before the justice, but she appealed the case to common pleas court, and afterwards all parties concerned agreed and an order of court was made, finding all the property to be the property of Selina Chamberlain.

The constable still refuses and neglects to return the property and plaintiff asks damages as above. Farr is from Middleton township, he being employed in the case because at that time there was no constable in St. Clair township.

A SKELETON KEY

LISBON, May 25. - [Special] - The guards arrived from the Ohio state reformatory yesterday and took Thompson Hineman, Edward Hauselman and Charles Nelson, the Liverpool boys sentenced to two years each for burglary, to that institution. Upon searching Hanselman the officers found a skeleton key secreted in his clothes. The boys have been sulky since their attempt to break jail Friday, and it is not known how Hanselman secured the key.

Mrs. Alice R. Gamble Was Given a Hearing Yesterday Afternoon, but Her Case Has Been Continued-The Jail Is Empty. but the Police Have Work.

At 10:30 o'clock last night Chief Johnson arrested Frank Kays in Center alley on a charge of being drunk and acting disorderly. He pleaded guilty this morning, paid a fine of \$9.60 and was released.

Kays wanted to have some trouble with several acquaintances but he failed owing to the appearance of the officer. There were three other men with him, but as yet no charge has been filed against them.

Edwin Morley called on the mayor this morning, pleaded guilty to a charge of disorderly conduct and paid a fine of \$7.60. He was to be given a hearing this evening at 5 o'clock.

The trial of Alice R. Gamble, wife of Alfred C. Gamble, took place in council chamber yesterday afternoon. She was arrested Sunday morning by Officer Grim on a charge of disorderly conduct, and when the case was called the following witnesses testified: Mr. and Mrs. Gamble, Jethro Barlow, Benjamin Wyand, Isaac Eoff and Benjamin Scott for the defense and Wilford Wallace, Samuel Whittenburg, Robert Spencer, James Jones, D. J. Madden and Harry Morrow for the city.

Several witnesses told the story of the actions of Mrs. Gamble on that morning and of how she abused the officer by loud talking. When the woman was placed on the stand she said the men had testified to untruths. Attorney Vodrey had charge of the case for the defendant, while Solicitor McGarry looked after the interests of the city. After all the witnesses had been heard the case was carried over until today.

Chief Johnson has been asked by Chief of Police McDowell, of Youngstown, to lookout for Jesse Ripple who is wanted at that place very badly. A reward of \$25 is offered for his capture.

The jail is now empty, and while no one is in it will be cleaned.

HEROIC ACT AT MANILA FIRE.

How Sergeant Chick Helped to Save the City From Destruction.

The adjutant general at Washington has received from Major General Otis eral of Manila, in regard to the fires started by the insurgents in Manila on Feb. 22 and 23. General Hughes calls attention to a heroic act performed by an enlisted man of the United States army. It became necessary to blow up some buildings to prevent the spread of the flames, and in referring to this General Hughes says:

"I wish to make special mention of Sergeant Leon H. Chick, Battery H, Third United States artillery, who was acting under the direction of Captain W. T. Wood, chief of ordnance, in placing and firing the powder cartridges. The fuse of the second cartridge failed, and the building was one sheet of flame in the lighter materials of the upper story. Sergeant Chick simply asked, when it became apparent that the first fuse had probably failed, if Captain Wood wished the fuse replaced, and on receiving an affirmative answer he entered this fire trap, renewed the fuse and caused the explosion of the cartridge, which so wrecked the building as to enable the fire to be checked with the means then at hand. This quiet discharge of so perilous a duty is, in my opinion, worthy of special recognition, and I therefore recommend Sergeant Chick for the appointment of ordnance sergeant, which I am informed is a position he seeks, and also that he be granted a certificate of merit."

In forwarding the report to the adjutant general of the army General Otis says "General Hughes might have added in his report that he was present in person with his troops during the entire period covered in this report and directed in person all operations. His tact and unceasing vigilance saved the city from conflagration and possibly preserved the lives of the inhabitants. -New York Sun.

Property Street Avondale Owners Ask Court

TO AWARD THEM \$4,600 DAMAGES

From the City For Losses Sustained Through the City's Changing the Grade of That Thoroughfare--Claim the Cut Was an Unreasonable and Improper One.

LISBON, May 25.—[Special]—Seven petitions were filed in common pleas court vesterday afternoon in all of which the city of East Liverpool is made defendant by reason of alleged damages to property resulting from changing the grade of Avondale street. The aggregate amount of damages asked is \$4,600. The petitions were all similar, and the owners of the property allege that in 1886 Avondale street was made a public highway, and that on the premises buildings were erected and improvements made with ordinary care and with reference to a future reasonable and proper grade of the street. In 1898 the city changed the grade and reconstructed the street, at a grade much lower than before, i. e. 25 feet. Access to the property has been greatly impaired and the value of the lots depreciated and retaining walls had to be built. The petition and amount of damages asked by each are as follows: Mary S. Collins, owner of lot 1671, \$2,000 Frederick Wilson, lot 1675, \$600; Blair Sharp, lot 1677, \$590; Albert G. Allison, lot 1680, \$500; Zadock Fowler, lot 1682 \$350; Jas. F. Selina Chamberlain Wants \$300 Damages From E. T. Farr, of Middleton.

LISBON, May 25.- [Special]-Selina Chamberlain, of St. Clair township, has brought suit against Emmet E Farr as constable and T. F. Shaffer and H. F. Huston as his sureties, asking a judgment of \$300. Plaintiff says that on Aug. 20, 1897, under a writ of replevin. the constable took possession of various articles of household furniture claimed by the plaintiff as her property. She executed a redelivery bond which was approved by the justice, but the constable failed and refused to return the property. Judgment was taken by default against the plaintiff who was the defendant in the case pending before the justice, but she appealed the case to common pleas court, and afterwards all parties concerned agreed and an order of court was made, finding all the property to be the property of Selina Chamberlain.

The constable still refuses and neglects to return the property and plaintiff asks damages as above. Farr is from Middleton township, he being employed in the case because at that time there was no constable in St. Clair township.

HEROIC ACT AT MANILA FIRE.

How Sergeant Chick Helped to Save

The adjutant general at Washington has received from Major General Otis a report submitted by Brigadier General S. P. Hughes, provost marshal general of Manila, in regard to the fires started by the insurgents in Manila on Feb. 22 and 23. General Hughes calls attention to a heroic act performed by an enlisted man of the United States army. It became necessary to blow up some buildings to prevent the spread of the flames, and in referring to this

General Hughes says: "I wish to make special mention of Sergeant Leon H. Chick, Battery H, Third United States artillery, who was acting under the direction of Captain W. T. Wood, chief of ordnance, in placing and firing the powder cartridges. The fuse of the second cartridge failed, and the building was one sheet of flame in the lighter materials of the upper story. Sergeant Chick simply asked, when it became apparent that the first fuse had probably failed, if Captain Wood wished the fuse replaced, and on receiving an affirmative answer he entered this fire trap, renewed the fuse and caused the explosion of the cartridge, which so wrecked the building as to enable the fire to be checked with the means then at hand. This quiet discharge of so perilous a duty is, in my opinion, worthy of special recognition, and I therefore recommend Sergeant Chick for the appointment of ordnance sergeant, which I am informed is a position he seeks, and also that he be granted a certificate of merit.'

In forwarding the report to the adjutant general of the army General Otis says "General Hughes might have added in his report that he was present in person with his troops during the entire period covered in this report and directed in person all operations. His tact and unceasing vigilance saved the city from conflagration and possibly preserved the lives of the inhabitants. -New York Sun.

ALWAYS AGAINST.

It is a remarkable thing about the Democratic party that it is always antisomething. In '92 it was against the tariff. In '96 it was against the existing money standard, against the supreme court and against capital. Now it is anti-trust and anti-expansion. Always "anti," always "forninst the givermint."

The Democratic party as a party is the party of kickers, soreheads, cranks and demagogues. Its platform is made up of "we view with alarm," and never of "we point with pride." When the currence and an arrest or so may be Democratic platform committee, city, state or national, needs a plank it looks around and proceeds to denounce something or somebody. The party is strong on pulling down, weak in building up. It would make a fine anarchist mob, but a mighty poor assemblage of hard working citizens and homebuilders.

Mayor Bough made hundreds of friends yesterday. All the world loves a fighter, a man who knows his rights and is ready and willing to stand up for them. Report Says Council Will Get Even With the Mayor

FOR SUSPENDING THEIR PETS

The Officers See the Police Committee of Council and Are Advised to Don Citizen's Clothes-Officer Grim Retains Counsel and Will Make a Fight-McMillan Quit and Solicitor McGarry Is Investigating

When it became known last evening that Mayor Bough had suspended Officers Whan and Grim upon various charges it caused a small sized sensation, but there was a greater sensation in store for the people, and today it was common rumor that council would pass an ordinance abolishing the whole police force rather than see their pets turned off.

The officers after receiving notice of their suspension at once started out to see what could be done in the matter. They immediately hunted up George W. Ashbaugh, chairman of the police committee of council, to see if he could not help them out in their troubles. The news was a surprise to Mr. Ashbaugh and he communicated with the other members of the committee and a great deal of telephoning was done, and it was decided to hold a meeting today of the committee, but it was later declared

Mr. Ashbaugh looked into the matter and then informed the officers the best thing for them to do was to go home don citizen's clothes and take a rest until the regular meeting of council, when their case would be considered, as the police committee had no power in the matter and the action of the mayor was legal in every way.

Chief Johnson immediately took steps to give the city the best police protection in his power pending a settlement of the difficulty, and the only officers on the force, Messrs. White and Mahony, were detailed to go on duty at 6 p. m. and off at 6 a. m., while he would look after the city during the day. He deemed this the best arrangement, as he thought more policemen were needed at night than during the day.

At police court an examination of the register was made, and it was found that Officer Whan registered last evening at 6 o'clock, but up to noon today he had not filed his return register. Arthur Grim registered at 7 o'clock yesterday morning, but he has not yet made his return register.

Mayor Bough when questioned about the matter this morning refused to talk and said the ordinance spoke for him.

SOLICITOR M'GARRY

Is Busy This Afternoon Looking Up the Law on the Subject.

Solicitor McGarry is busy today investigating the questions which arose in regard to the dismissal of Officer McMillan, as both council and the mayor are anxious to know just where they stand. It will require some time for him to complete his work, but when he finishes it will be known just how members are added to and discharged from the force. In regard to the suspension of Officers Whan and Grim he stated that the mayor had a right to suspend the officers and file charges at the next regular meeting of council.

ENGAGED COUNSEL.

Attorney A. H. Clark Will Look After the Case of Ex-Officer Grim.

Officer Grim yesterday afternoon engaged Attorney A. H. Clark to look after his case when it came before council. The attorney cailed upon the mayor today and learned the nature of the charges. Report Says Council Will Get Even With the Mayor

FOR SUSPENDING THEIR PETS

The Officers See the Police Committee of Council and Are Advised to Don Citizen's Clothes-Officer Grim Retains Counsel and Will Make a Fight-McMillan Quit and Solicitor McGarry Is Investigating,

When it became known last evening that Mayor Bough had suspended Officers Whan and Grim upon various charges it caused a small sized sensation, but there was a greater sensation in store for the people, and today it was common rumor that council would pass an ordinance abolishing the whole police force rather than see their pets turned off.

The officers after receiving notice of their suspension at once started out to see what could be done in the matter. They immediately hunted up George W. Ashbaugh, chairman of the police committee of council, to see if he could not help them out in their troubles. The news was a surprise to Mr. Ashbaugh and he communicated with the other members of the committee and a great deal of telephoning was done, and it was decided to hold a meeting today of the committee, but it was later declared

Mr. Ashbaugh looked into the matter and then informed the officers the best thing for them to do was to go home don citizen's clothes and take a rest until the regular meeting of council, when their case would be considered, as the police committee had no power in the matter and the action of the mayor was legal in every way.

Chief Johnson immediately took steps to give the city the best police protection in his power pending a settlement of the difficulty, and the only officers on the force, Messrs. White and Mahony, were detailed to go on duty at 6 p. m. and off at 6 a. m., while he would look after the city during the day. He deemed this the best arrangement, as he thought more policemen were needed at night than during the day.

At police court an examination of the register was made, and it was found that Officer Whan registered last evening at 6 o'clock, but up to noon today he had not filed his return register. Arthur Grim registered at 7 o'clock yesterday morning, but he has not yet made his return register.

Mayor Bough when questioned about the matter this morning refused to talk and said the ordinance spoke for him.

SOLICITOR M'GARRY

Is Busy This Afternoon Looking Up the Law on the Subject.

Solicitor McGarry is busy today investigating the questions which arose in regard to the dismissal of Officer McMillan, as both council and the mayor are anxious to know just where they stand. It well require some time for him to complete his work, but when he finishes it will be known just how members are added to and discharged from the force. In regard to the suspension of Officers Whan and Grim he stated that the mayor had a right to suspend the officers and file charges at the next regular meeting of council.

Ashbaugh, chairman of the police committee of council, to see if he could not help them out in their troubles. The news was a surprise to Mr. Ashbaugh and he communicated with the other members of the committee and a great deal of telephoning was done, and it was decided to hold a meeting today of the committee, but it was later declared

Mr. Ashbaugh looked into the matter and then informed the officers the best thing for them to do was to go home don citizen's clothes and take a rest until the regular meeting of council, when their case would be considered, as the police committee had no power in the matter and the action of the mayor was legal in every way.

Chief Johnson immediately took steps to give the city the best police protection in his power pending a settlement of the difficulty, and the only officers on the force, Messrs. White and Mahony, were detailed to go on duty at 6 p. m. and off at 6 a. m., while he would look after the city during the day. He deemed this the best arrangement, as he thought more policemen were needed at night than during the day.

At police court an examination of the register was made, and it was found that Officer Whan registered last evening at 6 o'clock, but up to noon today he had not filed his return register. Arthur Grim registered at 7 o'clock yesterday morning, but he has not yet made. his return register.

Mayor Bough when questioned about the matter this morning refused to talk and said the ordinance spoke for him.

SOLICITOR M'GARRY

Is Busy This Afternoon Looking Up the Law on the Subject.

Solicitor McGarry is bosy today investigating the questions which arose in regard to the dismissal of Officer McMillan, as both council and the mayor are anxious to know just where they stand. It will require some time for him to complete his work, but when he finishes it will be known just how members are added to and discharged from the force. In regard to the suspension of Officers Whan and Grim he stated that the mayor had a right to suspend the officers and file charges at the next regular meeting of council.

ENGAGED COUNSEL.

Attorney A. H. Clark Will Look After the Case of Ex-Officer Grim.

Officer Grim yesterday afternoon engaged Attorney A. H. Clark to look after his case when it came before council. The attorney cailed upon the mayor today and learned the nature of the charges. In response to a reporter he said: "When the charges are presented to council and they set a date for hearing the case we will be there prepared to make a fight."

HE IS OFF.

Officer McMillan Notified That His Services Were Not Needed.

Last evening Officer McMillan called at city hall, but he explained to the mayor that he had decided not to make any effort to go on duty and collect his salary. The mayor told him he thought he was taking the wisest course under the circumstances.

YOUNG SURGEON'S HEROISM

Took the Knife From His Dying Father and Finished an Operation.

Dr. Reuben Ludlam, Sr., president of Hahnemann Medical college, in Chicago, and one of the most widely known homeopathic practitioners in the world, was stricken with heart disease at 5 p. m. the other day just at the critical point in an operation he was performing at the college hospital. Although Dr. Ludlam was carried from the operating room in a dying condition his son, Dr. Reuben Ludlam, Jr., who had been acting as assistant, immediately seized the instrument from his father's hands and to save the life of the patient continued the work.

Dr. Ludlam senior expired within five minutes in a room adjoining the operating room, but it was not till a half hour later that the son, the patient having come safely through the operation, went to his side. The patient was a woman. The operation was the removal of a fibroid tumor of large size

moval of a fibroid tumor of large size from the abdominal cavity. The patient probably will recover as the result of young Dr. Ludlam's service.

Dr. Ludlam's death came without the slightest warning. The patient had been under the afhæsthetic for half an hour and the surgeon was about to excise the tumor. Clad in a long white robe and instrument in hand he was finished and sent out on the road this cape and special car.

"I feel weak!" He sank into a chair that was hastily placed bekind him. At first it was thought that he had fainted. He was carried into the adjoining room. Dr. Homer V. Halbert of the staff was summoned from another part of the hospital. Dr. George F. Shears, professor of surgery, was also sent for, but death came quickly and their services were of no avail.

Dr. Ludlam junior was told that his father had fainted, but professional instinct told him what really had occurred. - Chicago Tribune.

Fishing With a Jug of Lime.

The fish killers at Lake Wawasee, near Wabash, Ind., on whose trail the deputy fish commissioners have been hot, have abandoned dynamiting, which gives an easy clew to their identity, and are now generally adopting a new device for slaughtering the fish in the lake. A jug is procured, filled with unslaked lime and corked. A small aperture is left in the cork, through which the water seeps, and as the lime slakes there is a violent explosion in the water, and the dead fish rise to the surface by scores. The method is in vogue by many of the poachers. - Cincinnati En-

William Waldorf Tells Why He Abandons His Native Land.

VIRULENT NEWSPAPER ATTACKS.

Remembers His Father Saying of Them That "It Is Enough to Make One Wish to Abandon Such a Country!" an Opinion He Subsequently Learned to Share.

William Waldorf Astor tells why he quitted America.

The form that he uses is not "to quit," but "to abandon," which is graver. He refutes a pretty legend of not for sale. He says, "So silly and reported a liquidation of \$14,000 debts. narrow minded a rule could be imagined by very 'silly and narrow minded people."

He might have added, "To wit-the New Yorkers," but he has courtesy. He calls Powers, sculptor of "The Greek Slave," Power, the United States. "the poor man's country;" descendants of the colonists, men who "have risen to the level of mere tillers of the soil." He does these things in his biography of his great-grandfather, John Jacob Astor, which has just appeared, and in The Pall Mall Magazine, which summarizes the biography.

He prints a genealogy of the Astor family which is an Odyssey. Pedro d'Asterg of Castile, followed the Count of Toulouse to France and to the Crusades. He was killed at the taking of Jerusalem in 1100. Jean Jacques d'Astorg fled to Germany in 1664, at the revocation of the edict of Nantes. His grandson, John Jacob Astor, came to America in 1784. The latter's great grandson, William Waldorf Astor, has removed to England.

He begins by saying in the summary of his biography:

"I have often had occasion to remember a remark made with droll solemnity by the American sculptor, Hiram Power, at his studio in Florence 34 years ago. 'Wealth is nothing.' And I recall these words because they represent pre-eminently the characteristic and distinctive opinion of a large portion of the original American colonists and of their descendants. I failed to become a convert to Mr. Power's New England philosophy, whereof so many like phrases and obiter dicta are current in familiar American parlance."

He is ingenuous and interesting, but it is sad that he does not know better the name of Power. He tells of the original John Jacob Astor's coming to New York and gives the story of his life. Mr. Astor describes his greatgrandfather's travels, his recreations and his friends, and says:

"In America my great-grandfather's life and character have been distorted and caricatured until only an odd travesty survives. By the prese, in particufar, with the exception of a few serious journals, he has been continually derided and reviled with that spirit of pure malignity which pursues the successful man. It is not democratic to climb so high.

"The value of such criticism may be estimated by what transatlantic newspapers say of one another in the heat of their occasional rivalries. At such times each can be trusted to tell the unvarnished truth about the other, and it is not infrequently made to appear that there exists no ampler copiousness of meanness and vulgarity, no grosser exhibition of ignorance, no coarser prosfanation of private life, of modesty, of the defenseless, or of domestic sorrow. than fills the columns of these lepers

white as snow. "And yet such is the infirmity of our nature that it is difficult for an individual to disregard the depressing influence of an habitual atmosphere of personal abuse. I remember when a lad hearing my father say of some of the most virulent of these attacks, 'It is enough to make one wish to abandon such a country!'-an opinion I subsequently learned to share.'

Mr. Astor does not tell what these attacks were. One may not judge if they were graver than one that provoked his suit for libel against the Daily Mail of London. That newspaper had published a report of his having given a dinner on the trunk of a California tree. He asked for \$5,000 damages, and was satisfied on Feb. 7 with an apology.-New York Journal.

VISIT WINONA LAKE.

An Attractive Summer Haven For Rest, Recreation and Entertainment.

Winona Lake, Ind., on the Pennsylvania lines, is an attractive summer haven for persons who may desire to combine devotion, entertainment and instruction with rest and recreation. This lake is a beautiful sheet of water nearly two miles long, surrounded by romantic woodland, which has been improved into a grand summer resort with all the comforts and conveniences for a delightful sojourn. The entrance to the grounds adjoins the pretty station of Winona Lake, on the Fort Wayne route.

As the site of Winona Assembly and Summer School, this resort is visited each summer by many people who are invigorated in both mind and body by the instructive entertainment and health-giving recreation for which Winona is famous. The educational work of the summer school is under the supervision of prominent instructors. Fine facilities for athletic pastimes are provided, and the college halls and large auditorium are amply equipped for interesting work. The boating, bathing and fishing are excellent. The permanent buildings include many cosy cottages, where accommodations may be secured at reasonable rates. There is also a large hotel, and provision for camping out for those who may enjoy tent life. Supplies are obtainable at the large store on the grounds.

The season of 1899 will open May 15. Commencing on that date excursion tickets, with 15 day limit, will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will also begin May 15, and continue daily until Sept. 13. Excursion tickets will be good returning until

UNION LABELS.

It should be a deep-rooted principle of il union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours and union labor employed.

William Waldorf Tells Why He Abandons His Native Land.

VIRULENT NEWSPAPER ATTACKS.

Remembers His Father Saying of Them That "It Is Enough to Make One Wish to Abandon Such a Country!" an Opinion He Subsequently Learned to Share.

William Waldorf Astor tells why he quitted America.

The form that he uses is not "to quit," but "to abandon," which is graver. He refutes a pretty legend of New York that lands of the Astors were not for sale. He says, "So silly and narrow minded a rule could be imagined by very 'silly and narrow minded people."

He might have added, "To wit-the New Yorkers," but he has courtesy. He calls Powers, sculptor of "The Greek Slave," Power, the United States. "the poor man's country;" descendants of the colonists, men who "have risen to the level of mere tillers of the soil." He does these things in his biography of his great-grandfather, John Jacob Astor, which has just appeared, and in The Pall Mall Magazine, which summarizes the biography.

He prints a genealogy of the Astor family which is an Odyssey. Pedro d'Asterg of Castile, followed the Count of Toulouse to France and to the Crusades. He was killed at the taking of Jerusalem in 1100. Jean Jacques d'Astorg fled to Germany in 1664, at the revocation of the edict of Nantes. His grandson, John Jacob Astor, came to America in 1784. The latter's great grandson, William Waldorf Astor, has removed to England.

He begins by saying in the summary of his biography:

"I have often had occasion to remember a remark made with droll solemnity by the American sculptor, Hiram Power, at his studio in Florence 84 years ago. 'Wealth is nothing.' And I recall these words because they represent pre-eminently the characteristic and distinctive opinion of a large portion of the original American colonists and of their descendants. I failed to become a convert to Mr. Power's New England philosophy, whereof so many like phrases and obiter dicta are current in familiar American parlance."

He is ingenuous and interesting, but it is sad that he does not know better name of Power. He tells of the original John Jacob Astor's coming to New York and gives the story of his life. Mr. Astor describes his greatgrandfather's travels, his recreations and his friends, and says:

In America my great-grandfather's life and character have been distorted and caricatured until only an odd travesty survives. By the press, in particu-Agr. with the exception of a few serious journals, he has been continually derided and reviled with that spirit of pure malignity which pursues the successful man. It is not democratic to climb so

"The value of such criticism may be estimated by what transatlantic newspapers say of one another in the heat of their occasional rivalries. At such times each can be trusted to tell the unvarnished truth about the other, and it is not infrequently made to appear that there exists no ampler copiousness of meanness and vulgarity, no grosser exhibition of ignorance, no coarser prosfanation of private life, of modesty, of the defenseless, or of domestic sorrow. man fills the columns of these lepers white as snow.

"And yet such is the infirmity of our nature that it is difficult for an individual to disregard the depressing influence of an habitual atmosphere of personal abuse. I remember when a lad hearing my father say of some of the most virulent of these attacks. 'It is enough to make one wish to abandon such a country!'-an opinion I subsequently learned to share.

Mr. Astor does not tell what these attacks were. One may not judge if they were graver than one that provoked his suit for libel against the Daily Mail of London. That newspaper had published a report of his having given a dinner on the trunk of a California tree. He asked for \$5,000 damages, and was satisfied on Feb. 7 with an apology. -New York Journal.

An Attractive Summer Haven For Rest, Recreation and Entertainment.

Winona Lake, Ind., on the Pennsylvania lines, is an attractive summer haven for persons who may desire to combine devotion, entertainment and instruction with rest and recreation. This lake is a beautiful sheet of water nearly two miles long, surrounded by romantic woodland, which has been improved into a grand summer resort with all the comforts and conveniences for a delightful sojourn. The entrance to the grounds adjoins the pretty station of Winona Lake, on the Fort Wayne

As the site of Winona Assembly and Summer School, this resort is visited each summer by many people who are invigorated in both mind and body by the instructive entertainment and health-giving recreation for which Winona is famous. The educational work of the summer school is under the supervision of prominent instructors. Fine facilities for athletic pastimes are provided, and the college halls and large auditorium are amply equipped for interesting work. The boating, bathing and fishing are excellent. The permanent buildings include many cosy cottages, where accommodations may be secured at reasonable rates. There is also a large hotel, and provision for camping out for those who may enjoy tent life. Supplies are obtainable at the large store on the grounds.

The season of 1899 will open May 15. Commencing on that date excursion tickets, with 15 day limit, will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will also begin May 15, and continue daily until Sept. 13. Excursion tickets will be good returning until

Full information about the attractions at "Beautiful Winona," its Assembly and Summer School, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines, or to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa.

Vacation Trips.

The Pennsylvania lines extend direct to places of summer sojourn along the Atlantic Ocean. Atlantic City, Cape May, Asbury Park Long Branch and resorts on the New Jersey coast are seashore terminals of the Pennsylvania system. Newport, Narragansett and summer havens in New England are reached over the Pennsylvania route via New York. The Adirondacks, White Mountains, Catskills and mountain retreats of the east are also reached through New York. Resorts in the Alleghenies are located upon the Pennsylvania route and may be reached via Pittsburg without changing cars. The Pennsylvania lines also lead to resorts in Michigan and the lake region through three gateways: Cleveland, Toledo and Fort Wayne. Full information about rates, through time of trains and the convenient manner in which summer resorts may be reached will be cheerfully furnished upon application to local passenger and ticket No. 9..... agents of the Pennsylvania lines, or by addressing J. THE FIGHTING AT MANILA. Not All the Beroes Are on the Army's Firing Line.

A well known army man who was at UNIQUE ENTERPRISE OF SHOWMEN. Manila during most of the fighting around that place up to April 1, when he was ordered to St. Louis on duty connected with the recruiting service, says the story of the fighting in the Philippines will never be complete until due credit is given the trave men and women who have labored in the hospital service. "There are three large Ringling Bros. are about to resume army hospitals at Manila, in addition gentleman, who would not consent to the three is the First Reserve hospital, which was formerly known as the Hospital Militar. "As soon as a man falls on the field he is looked after by the hospital corps, composed of brave and active men, who are constantly on the firing line during an engagement. His 'first aid' bandages are brought into use, and as quickly as possible he is placed on board the hospital cars and taken back to Manila. These cars are ordinary box cars of the Manila railway, with straw and blankets spread over the floor. Some of them have regular ambulance appliances also. THE PEOPLE'S TABERNACLE.

Kansas City Pastor Proposes to Build an Institutional Church.

It will not be long before Kansas City has an institutional church that will probably cost \$100,000. Dr. S. A. Northrop, pastor of the First Baptist church, said recently that he and a number of his members were working diligently toward that end, although nothing definite as yet has been decided.

"If we can sell our present property, said Dr. Northrop, "and we have had several good offers, it is my desire to build a large institutional church on the corner of Eleventh and Broadway. I want a church where young men can come for recreation and rest when they are down in the city. I would have, of course, an auditorium for the worship of my own denomination. Then I would have a reading room, library, clubroom, kindergarten, a lecture hall and many other things that would tend to welcome the stranger and lead men to do right. This building I would keep open continnously, and in winter we would warm the cold and feed the hungry. "Over the door of the main entrance

I would have the words:

" 'Tabernacle of the People.' "Beneath that I would have:

" 'Church of the People, For the People and by the People.

"Such a church would cost about \$100,000. While it is probably no more than a dream now, something is bein, done toward that end that I hope will soon culminate in something more substantial."-St. Louis Post-Dispatch.

The Czar Sanguine as to Results of The Hague Meeting.

HIS FEELING TOWARD AMERICA.

Admires Principle of States Conducting Affairs Without a Standing Army - Confident That the United States Delegates Will Aid In Establishing Some Practical System of Arbitration.

While I cannot repeat directly anything the czar said to me during our interview a few days ago at St. Petersburg, it is permissible to tell America that he is in excellent spirits and full of hope for results from the peace conference at The Hague.

There is no trace in St. Petersburg of the anti-American feeling which found expression in the German delegate Stengel's pamphlet against peace.

So far from regarding war with the United States as the inevitable destiny of Europe, the czar expressed the utmost confidence that the American delegates will stand by those of Russia, France and England in securing the establishment of some definite, practical system of international arbitra-

> The czar also relieves the Americans will favor recognition of the principle of arbitration in all questions involving national honor and interest.

> The tribunal which it is hoped will issue from the conference for the settlement of questions "du droit" will probably be found on the seme principles as those which have worked so successfully in the postal, telegraph and international railway bureaus at Berne, Switzerland-that is to say, a small body of jurists and practical men chosen from one or more of the minor powers questions in the name of and with the authority of the powers composing this conference.

> The question of mediation to be proposed is simply an extension of that clause of the treaty of Paris whereby the powers agreed, in the case of the Turkish question, to invoke the mediation of other powers before fighting. By the establishment of this principle the powers would voluntarily refer serious disputes to arbitration and the mediation of such powers as they might choose.

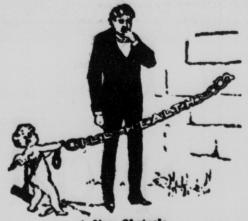

> It will be proposed that each power name one of its highest court judges to act as permanent arbitrator, who shall always be at the service of other powers when invited, thus effacing politics and other influences in the selection of members of the court of arbitration.

While I cannot repeat what the czar said to me about America, I may say that he likes the United States and admires the principle of united sovereign states conducting their affairs peacefully without standing armies. While the 'United States of Europe' is still far in the future, yet the czar's ideas are all tending toward that. He is in earnest about checking armaments, and he hopes for great results from the conference. It is Germany which is the stumbling block on the limitation of armaments. Fatal Cake Walking.

The death of Miss Rosa Storker, which occurred in Evansville, Ind., the other night, is said to have been due to excessive cake walking. The young lady was regarded as one of the most graceful cake walkers in the city and spent almost ever night in the pastime. A few evenings ago she participated in a cake walk and the next morning was seriously ill. A physician was called, and he pronounced the disease peritonitis and said it was caused by the young lady's frequent cake walking. It is said this is the second death in Evansville in the last six months caused by excessive cake walking. Miss Storker was a girl of 16.—Cincinnati Enquirer. | THE NEWS REVIEW

The old obstacles that used to prevent the marriage of loving couples are out of date. The blood-and-thunder villian is a myth nowadays. The cruel father is only a tradition. Distance, absence and ship-wreck in these days of cheap, safe and swift transportation do not count. The new obstacle is a common sense one. It is ill-health on one side or the other, and sometimes on both.

Men nowadays hesitate to marry a woman, no matter how beautiful, no matter how attractive, or interesting, or witty, if she is a sufferer from ill-health. All men worth having desire happy, healthy children. Any woman who will, may fit herself for the duties of wifehood and the exalted function of motherhood. Dr. Pierce's Favorite Prescription banishes all hindrance in the nature of local ill-health. It gives health, power and capacity to the delicate and important organs concerned in wifehood and maternity. It corrects all displacements, allays inflammation, heals ulceration, stops exhausting drains and soothes pain. It prepares for natural, healthy motherhood. It makes maternity easy and safe and almost painless. It insures a new-comer constitutionally strong and able to withstand the usual ills of babyhood. It is the greatest of nerve tonics and restoratives. Medicine dealers sell it and an honest dealer will not urge a substitute upon you. "After suffering untold tortures," writes Mrs. J. Ferguson, of Box 29. Douglas Station, Selkirk Co., Manitoba, "I thank God I found relief and cure in Dr. Pierce's Favorite Prescription."

The profit side of life is health. The balance is written in the rich, red, pure blood of health. Dr. Pierce's Pleasant Pellets cure constipation and make the blood rich and pure. They never gripe. By druggists.

Mrs. Mary Hewitt, of St. George street, who says: "I read in the Pittsburg Press an account of some one who had been cared of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living in almost the same place, had a tendency to convince me that there must be some truth in it, and I determined to try them myself. Some years before this I had a severe attack of rheumatism; for three months I lay helpless, and after that I had trouble with my kidneys. For a year I suffered severely. THE FIGHTING AT MANILA.

Not All the Beroes Are on the Army's Firing Line.

A well known army man who was at Manila during most of the fighting around that place up to April 1, when he was ordered to St. Louis on duty connected with the recruiting service, says the story of the fighting in the Philippines will never be complete until due credit is given the brave men and women who have labored in the hospital service. "There are three large army hospitals at Manila, in addition to a number of small ones," said this gentleman, who would not consent to the use of his name. "The largest of the three is the First Reserve hospital, which was formerly known as the Hospital Militar. It has 1,200 beds and is under the direction of Major Crosby, who is well known in St. Louis. The Second Reserve hospital, located in another part of the city, was formerly the Augustine college for young ladies. It is a very large building and well adapted to hospital purposes. Captain Frank Riefer is in charge. The convalescent hospital, situated on Corregidor island, has the same capacity as the Second Reserve, 300 beds. The air down the bay is much more salubrious than in the city of Manila, and there are no tical system of international arbitramosquitoes. The wharf where the sick soldiers are landed at Corregidor was

built by the army. "As soon as a man falls on the field he is looked after by the hospital corps, composed of brave and active men, who are constantly on the firing line during an engagement. His 'first aid' bandages are brought into use, and as quickly as possible he is placed on board the hospital cars and taken back to Manila. These cars are ordinary box cars of the Manila railway, with straw and blankets spread over the floor. Some of them have regular ambulance appliances also. Kansas City Pastor Proposes to Build an Institutional Church.

It will not be long before Kaneas City has an institutional church that will probably cost \$100,000. Dr. S. A. Northrop, pastor of the First Baptist church, said recently that he and a number of his members were working diligently toward that end, although nothing definite as yet has been decided.

"If we can sell our present property," said Dr. Northrop, "and we have had several good offers, it is my desire to build a large institutional church on the corner of Eleventh and Broadway. I want a church where young men can come for recreation and rest when they are down in the city. I would have, of course, an auditorium for the worship of my own denomination. Then I would have a reading room, library, clubroom, kindergarten, a lecture hall and many other things that would tend to welcome the stranger and lead men to do right. This building I would keep open continnously, and in winter we would warm the cold and feed the hungry.

"Over the door of the main entrance

I would have the words: " 'Tabernacle of the People.'

"Beneath that I would have: " 'Church of the People, For the

People and by the People. "Such a church would cost about \$100,000. While it is probably no more than a dream now, something is bein, done toward that end that I hope will soon culminate in something more substantial."-St. Louis Post-Dispatch.

Beasts of the Jungle to Be Raised In America.

UNIQUE ENTERPRISE OF SHOWMEN.

Have Secured Three Islands Off the Florida Coast and Will Stock Them With Beasts From All Parts of the World-Animals Will Live In Their Natural State.

Ringling Bros. are about to resume their vast enterprise, interrupted by the war with Spain, of establishing a farm for breeding and rearing wild

Two years ago they took the initial steps in this unique undertaking and went so far as to purchase a site, consisting of 1,000 acres, in southern Florids. But the purpose for which they wanted it soon became known, and the whole country thereabouts rose as one man to oppose it. It was useless for the Ringlings to set forth the measures they would adopt in the way of impregnable barriers to keep the animals within the inclosure. The people insisted that an occasional escape could not be prevented, and they pictured all the horrors of a raging lion going about seeking whom he might devour; of mosquitoes. The wharf where the sick tigers eating their cattle and elephants soldiers are landed at Corregidor was and hippopotamuses trampling down built by the army. their growing crops, tearing down their fences and spreading havoc and devastation around generally in large chunks. The upshot of the agitation was that the matter was taken into the courts, and the citizens secured a permanent are brought into use, and as quickly as injunction against the Ringlings, restraining them from stocking their pital cars and taken back to Manila. proposed wild animal farm.

Foreseeing that the same opposition would develop in any other community. the Ringlings next conceived the idea of buying or leasing a small island off the southern coast for the purpose. Negotiations were entered into for the purchase of some small islands among the smaller Florida keys. Before the negotiations were completed war with Spain was declared, and in the prevailing excitement in that section the negotiations were snapended. They were resumed, however, after peace had been declared, and culminated in the Ringlings securing control of three islands, each containing 6,000 acres. They are eminently fitted for the object in view. They are practically isolated, being several miles distant from any other island. They are too far from the coast for the animals to be a source of danger and near enough to be in easy sailing distance. The climate is as nearly tropical as this continent affords and suitable for animals native to the tropicals and fresh water Creeks and rivers will give ample water supply.

The general plan outlined will be to have the animals live in as nearly their natural state as possible. The thick undergrowth of Florida will give the lions and tigers a jungle almost like the real thing in India. They will be allowed their freedom, they will make in their own ways. The surrounding sea will be a safeguard to keep them from attempting to get away, even should they be inclined to do so. To protect the aniamis from each other no two species which war on each other in their natural state will be left together on the same island. They will be divided into three classes according to their disposition to dwell together in

Expeditions are now being fitted out by the Ringlings to explore all parts of the world for zoological specimens with which to stock the farm-lions and tigers from the tropics, polar bears from the frozen north, marsupials from Australia, monkeys from South America, and so forth. After the first cost of capture and transportation the expense of maintenance will be comparatively light, but still considerable. It is expected, however, that in time the farm will not only pay expenses, but yield a handsome profit. Such animals for circuses and zoological gardens are always in demand at good prices, and acclimated beasts would be given the preference, even at the same prices, over imported animals, and the Ringlings expect to be able not only to supply their cwn menageries, but furnish them to all prospective purchasers at a profit.

The animal hospital for sick and injured beasts which the Ringlings always maintain will be transferred to the farm, and there, too, the animals with the show will winter and recuperate from fatigue of a hard season's

The keepers will live on the islands in strong houses, safe from attack. Specially devised steamers will transport the animals to and from the farm. No visitors will be allowed on the islands, nor will any boats be permitted to land save those employed in transporting the animals. When it is desired to capture the animals for the show or for sale, they will be trapped as they are now in their native jungles and forests, but with a minimum of danger, as the men will be perfectly familiar not only with every foot of the land, but with the in a large hotel. ing Mr. Hobart Also.

New York, May 25.—The Evening World printed an interview with Senator T. C. Platt, in which the latter is quoted as strongly advocating the renomination of President McKinley and Vice President Hobart.

A New Prophet of Zion.

Dr. Hirsch Massliansky, the Dwight L. Moody of the Jewish people of the United States, arrived in Chicago the other day for a month's stay, during which time he will talk in favor of the Zionistic movement to Chicago audiences. "The Jew has been a tramp for centuries," said Dr. Massliansky the other afternoon, "and it is within the reach of the American Jews to win everlasting credit with their race by buying from the Turk a land where the weary toiler and the weak and disconsolate may rest in peace and quiet. The new Zion is certainly in sight, and it will be due to the work and to the enterprise of the American Jews that it will be brought about."--Chicago Times-Herald.

Civic Parade In Washington.

Washington, May 25.—The feature of the second day of the national jubilee celebration in this city was the civic parade. It consisted of all the fraternal, civil and trade organizations of the city, together with a long procession of floats. The parade passed through the court of honor, where President McKinley, his cabinet and a distinguished company reviewed it from a stand in front of the White House grounds.

Railroaders Must Eschew Politics.

New York, May 25.—President Truesdell of the Delaware, Lackawanna and Western railroad issued a circular to the employes of the road informing them that they must not divide their time between their duties and politics. Mr. Truesdell also issued orders prohibiting any employe from engaging in any other business while in the employ of the road.

Russia Will Do as She Pleases.

Pekin, May 25.—The Russian minister here, M. DeGiers, notified the tsungli-yamen that Russia is unable to accept the Chinese refusal of a railroad concession and that she will send engineers forthwith to survey a line to connect the Russian Manchurian railroad with Pekin.

Report to the Assembly This Afternoon.

AGED MINISTER'S CONTRIBUTION.

Mounted the Tribune and Gave a \$1,000 Draft For Freedmen's Aid-Several Missionaries Spoke-Message Sent to the Queen-Some of the Proceedings.

MINNEAPOLIS, May 25.—The Presbyterian assembly sent a congratulatory cablegram to Queen Victoria on her 80th

Dr. Mathias L. Haines of Indiana, chairman of the foreign missions committee, read the report of his committee on the board of foreign missions. The report was complimentary and stimulating to interest in foreign misgions. It recommended that the retiring members of the board be elected.

Rev. Dr. Arthur J. Brown, corresponding secretary, addressed the assembly in behalf of the board and its

Several missionaries addressed the assembly. Rev. McNair spoke for Japan. The mikado's kingdom, he declared, was still in the darkness of heathenism, while modern civilization has accentu-

ated its materialism.

Rev. C. Scott Williams spoke for communicants.

The elders of the church south, sitting tion to a greater or less extent. in assembly at Richmond, replied as follows to the telegram sent them Tuesday by the elders of the church north:

"Replying to your salutation, we greet you as members of one body in Christ. Read Acts xx, 32, and Ephesians iii, 14 to 21. May God bless you

ev. Meed Holmes of Rockford, Ills., aged and bent, climbed upon the tribune in the Presbyterian general assembly and extracted from a worn little pocketbook a draft for \$1,000. Rents were terribly low, he said, and money promised was actually delivered.

Then, while the assembly applauded the amended report of the freedmen's committee to lynch law outrages in the

The lurid language the other day, which caused some excitement, gives place to this harmless paragraph:

"It (the freedmen's) is a cause that appeals to us with particular insistence at this time because of the development of the mob spirit in our Christian land. We join heartily with our fellow citizens and fellow Christians of all sections in the horror of those dreadful manifestations and we believe it is an hour for our church to pledge herself afresh in sacrifice and service to the redemption of the negro from his sufferings and his sins.'

Nobody had any fault to find with these words.

Rev. Dr. Meldrum of St. Paul, chairman of the standing committee on the board of Sabbath school affairs, made a highly eulogistic report at the afternoon session, in which he called attention to many statistics previously given in the board's report. During the year books to a value of \$127,637.38 had been sold and \$226,750.01 had been realized from periodicals. The net profits were \$19,-175.86, of which two-thirds had been placed to the credit of the Sabbath school department.

"So far as possible," recommends the report of the committee, "Presbyterian money should be spent for the spreading of the distinct Presbyter an suspel. This is nowise in onsistent with the truest and most gen rous Catholicity.

The twentiern century movement, which contemplates signalizing the opening of the new century with the addition of 500,000 children to the Sabbath schools, was approved. Dr. E. R.

Craven, secretary, made an appeal to the assembly for help.

Rev. W. H. Hubbard of Auburn, N Y., editor of The Assembly Herald, which was discontinued by decree of the assembly on Dec. 31, made his final report on that publication, showing that it has ceased to exist with a balance on the right side. Dr. Knox of a special committee, which had been running the new Assembly Herald, presented his report and recommended that the periodical be managed hereafter by a committee of three, one member to be appointed by the foreign missions board, another by the home missions and the third by the six other boards. In recognition of Dr. Hubbard's faithful services the balance was voted to him. Dr. Knox, however, compared the old and new Heralds in a way which did not please Dr. Hubbard. The latter begged the assembly for a chance to reply, and the committee insisted that they must have a chance to answer. The prospect promised a lively controversy, but it was postponed until today. The developments showed that a strong element

U. P. GENERAL ASSEMBLY.

Sermon Preached by the Retiring Moderator-Reports on Home Missions and Church Extension.

PHILADELPHIA, May 25.—The fortyfirst general assembly of the United Presbyterian church of North America began its sessions here. The sermon was preached by the retiring moderator, Rev. Dr. H. C. Ferguson. The report of the boards of church extension and home missions were presented.

The report on missions said in part: Twenty-eight stations have been in the special care of the board. All but for of these—Canton, Detroit, Lincoln and Tacoma-whose terms as special missions now expire, remain in this relation to the board and their requests for the coming year have been acted upon.

The woman's board continues to bear the entire cost of the work among the Warm Spring Indians, and expended during the past year \$2,910.

Of 210 stations for which aid has been asked for the coming year, 126 have been brought before the board sliding scale and 15-year limit, with requests for their exemption from the Mexico, where the church now has 4,000 | operation of one or both. In 107 instances the board recommends exemp-

The total receipts of the board for the year amounts to \$83,839.90 and the total expenditure \$83,172.08. In the direct contributions there was an increase of \$7,214.49 over the year 1898. A balance of \$667.82 is available for current needs, all necessary outlay having been met, including the return to permanent funds of \$8,325.90 borrowed.

The report on church extension said in part:

The total receipts for the year from all sources, including the balance on hand May 1, 1898, were \$83,535.83, and the total disbursements, \$67,031.26, leavcause he would give that draft, provided all stood by their pledges and of which \$13,567.66 belongs to the perpromises, and the more than \$40,000 manent fund, leaving a balance for new work of \$2,936.91.

Of the 902 congregations in America, only 703 report themselves as contribered down. Dr. Charles Herr presented uting to church extension work, The general assembly is asked to consider this subject and take such action as may appear wise.

The outlook for the coming year is that the demand for aid will be very much greater than in the past. The general assembly is therefore asked to appropriate for this work at least

THE BAPTIST CONVENTIONS.

Women's Baptist Mission Society Commenced Work-Reports Made.

SAN FRANCISCO, May 25 .- The proceedings of the National Baptist conventions commenced with the opening session of the Women's Baptist Mission

The corresponding secretary, Miss Mary G. Burdette, made a report. Under the auspices of the general society 114 missionaries have labored during the year, their work being prosecuted at 90 different stations in 37 states and territories of our country and two states in Mexico. The number of missionaries in the field at the close of the year was 124. Religious visits during the year numbered 80,938, averaging over 700 visits to each worker. Reference was also made to the active preparations to advance the work in Cuba and the new American possessions in Porto Rico and the Phil-The total receipts of the year were \$60,388.95 and the disbursements were \$66,465.69, thus absorbing the balance of \$4,388 in the previous year and \$2,000 borrowed. Goods, clothing and supplies were sent to missionaries during the year valved at \$10,173.48.

BISHOP FOSS ONE OF SPEAKERS.

President Jesup Presided Over the Big Opening Meeting-Praise For Queen Victoria and a Message Sent to Her. Ten Large Meetings Last Night.

PHILADELPHIA, May 25 .- The celebration of the seventy-fifth anniversary of the American Sunday School union was begun here Wednesday and continued

The spacious academy was filled when the exercises were begun. On the stage were prominent preachers, who represented many denominations. One of the features of the decorations was a large map of the United States erected on the stage, which showed the percentage of the population of each state of the Union enrolled in the Sunday schools. The little state of Delaware headed the list with 28 per cent. Maryland came next, with 25 per cent, and Oregon third, with 24 per cent. New Mexico came last, with but three-tenths of 1 per cent of her population connected with Sunday schools.

The meeting was presided over by Morris K. Jesup of New York, president of the union. After the choir opened the exercises by singing the anthem, "Glorious Is Thy Name," President Jesup delivered the address of welcome. He dwelt at length on the work of the organization during the past 75 years and told how the union has kept pace with the growth of the country. He concluded by saying that the destinies of the nation rest upon the youth of today and that it was the duty of the adults to look after the education and moral training of the young. President Jesup was followed by the Rev. George Dana Boardman, D. D., of this city, who delivored an eloquent prayer, asking for the Divine blessing on Queen Victoria, who celebrated her 80th birthday, and upon the peace envoys at The Hague.

Addresses were also made by Bishop Cyrus D. Foss, D. D., of the Methodist Episcopal diocese of Pennsylvania; Rev. Henry Varley of England, Rev. Floyd W. Tompkins, D. D., rector of Trinity Protestant Episcopal church of this city; Rufus M. Jones, representing the Society of Friends, and Rev. Russell H. Conwell of Grace Baptist church of this address, in which he eulogized Queen Victoria as a good type of the Christian woman. A message of congratulation

was sent to the queen. Ten large meetings were held in different parts of the city last night.

Rev. Dr. Stewart Accepted.

HARRISBURG, May 25.-Rev. Dr. George B. Stewart of this city announced his acceptance of the presidency of the Auburn Theological seminary of Auburn, N. Y., to which he was unanimously elected two weeks ago. Dr. Stewart asked the Market Square Presbyterian congregation to join with him in requesting the Carlisle presbytery to sever the pastoral relations. The congregation will act upon Dr. Stewart's request at a meeting to be held later.

Foster Denies Heresy.

DENVER, May 25.—The alleged heresy of Rev. Dr. Foster, who occupies the chair of systematic theology in the theological seminary at Lebanon, Tenn., received attention in the Cumberland Presbyterian general assembly. Dr. Foster said he had been misunderstood, and that he will revise the subject in his book and make himself clearer. The committee on education embodied his promise in its reports.

ANTI-TRUSTS THE ISSUE.

Democrats Intend to Make It the Rally ing Cry-Meeting In St. Louis Today. Bryan the Candidate.

St. Louis, May 25.-Ways, means and methods of conducting the next presidential campaign was being considered by the Democratic conference at the Planters' hotel today. It is not likely that much matter will come before the meeting and no definite action may be taken.

It is generally understood that "antitrust" will be the rallying cry for the Democracy with "anti-imperialism" a close second and "16 to 1" not entirely discarded but kept in third place. As one of the leaders of the party expressed it, "anti-trust" and "anti-imperialism" will be the salt and pepper with which we will flavor "16 to 1.

There have been countless rumors floating around to the effect that silver is to be entirely discarded and that, as far as Missouri is concerned, Bryan is to be shelved in favor of William J. Stone of Missouri. This Mr. Stone positively denied, saying that he would go into the next convention to work for Bryan and that the Missouri delegation would vote solidly for Mr. Bryan's nom-

POTTERIES CONSOLIDATED.

Stoneware Men Got Together and Formed a Combine-The Capital Stock \$2,500,000.

COLUMBUS, May 25.—At a secret meeting of the stoneware potteries east of the Mississippi river a consolidation was effected. The combine will be incorporated under the laws of Delaware, with a capital stock of \$2,500,000. It will be known as the American Stoneware company. Thirty representatives attended the meeting. R. H. Kent of Akron presided and will probably be the president of the new company, which will have its headquarters at at Akron.

Judge Grosscup Better.

ASHLAND, May 25.—United States Judge P. S. Grosscup of Chicago, who has been ill with fever for the past five weeks-the last three of which he has been especially serious at his father's home here—is now announced by his physicians to be safely over the greater part of his troubles. It is believed, that with careful nursing, he will soon re-

Asked to Be Co-Pastor.

Youngstown, May 25 .- At a congregational meeting of the First Presbyterian church of this city a unanimous call was extended to the Rev. W. H. Hudnut of Brooklyn to become co-pastor with the venerable pastor, Dr. D. H. Evans, who requires a rest and contemplates a long visit abroad.

Marie Burroughs Indicted.

Toledo, May 25 .- Marie M. Burroughs, who recently filed suits amounting to \$1,000,000 for damages against the cities of Toledo and Fremont, was indicted by the grand jury for perjury. The case came up in connection with her recent suits.

HARRISBURG, May 25 .- The Carnegie company, which made application to the state department recently for a charter, filed notice of an amendment of its title to the Carnegie Steel company. The proposed corporation was capitalized at \$100,000, which amount, it was said, will be increased to \$250, 000,000.

Wants to Entertain the President.

Washington, May 25.—Representative Gillette of Massachusetts called on the president to arrange for a reception in Springfield while on his way to Mt. Holyoke college to attend the graduation of his niece, Miss Grace McKinley. The president expressed his pleasure at the invitation and said he would be glad to meet the people of Springfield. It was his desire to have nothing *so formal as a banquet, as Mr. Gillette had suggested, but simply to meet the people at a reception.

THRASHED THE REBELS

They Attacked Scouts and the Troops Rushed Forward.

THE FILIPINO LOSS WAS HEAVY.

MacArthur and Funston Were In Command-Lawton's Rear Guard Had Hot Fighting With Rebels - Party Under Major Bell Killed 20.

MANILA, May 25 .- Generals MacArthur and Funston, with the Kansas and Montana regiments and Utah bat-tery, dispersed about 800 insurgents, who were entrenched on the railroad beyond San Fernando, near Santa Arita.

The American scouts were fired upon from the trenches unexpectedly and withdrew. The firing was heard at San Fernando and General MacArthur assembled his troops and marched quickly after the scouts. The Montana regiment flanked the trenches on the left and the Kansas regiment attacked the enemy's right flank, General Funston leading the charge at the double quick.

The insurgent loss, it was said, was large. Many prisoners were captured and it was reported that 20 Americans were wounded.

It developed Wednesday that five men, instead of one, were drowned by the sinking of a craft loaded with soldiers of the Fourteenth regiment at the

Pasig ferry. Twenty insurgents were killed and 40 were wounded in the engagement with Major Bell and a reconnoitering party, consisting of two companies of the Fourth cavalry, in the vicinity of Santa

Arita Tuesday. General Lawton with most of his troops arrived at Malolos. His expedition marched 120 miles in 20 days, had 22 fights, captured 28 towns, destroyed 300,000 bushels of rice and only lost six men killed and 31 wounded. On the other hand General Lawton estimated that his troops killed 400 insurgents and wounded double that number.

The Oregon and Mihnesota regiments were returning to Manila. The Spanish newspaper, Oceania, was suppressed for publishing seditious editorials.

Two companies of the Third infantry and two companies of the Twenty-second infantry, forming General Lawton's rear guard, returning from San Miguel to Balinag Tuesday, escorting a signal party which was picking up wire laid with General Lawton's expedition, found that the insurgents had reoccupied the country and hard fighting followed. The troops completed their work. One American was killed and 14 were wounded. The troops captured 20 prisoners and 30 rifles.

DEWEY NOT A SICK MAN.

Former Surgeon of Olympia Declared He Was Merely Effected by the Tropical Climate.

WASHINGTON, May 25 .- Surgeon J. E, Page of Admiral Dewey's flagship, the Olympia, arrived here on leave. Surgeon Page was on the flagship since Dewey took command, seeing him daily and having general charge of medical affairs, so that he was in a position to give an intelligent view of the admiral's health and general condition. He said

"Admiral Dewey is in no sense a sick man, but is as well as any man could be after spending a year in the tropics. I was on the Olympia at the time he came aboard, and from that time to the present, I do not believe there has been any appreciable change in his appearance, weight or general condition. Anyone who thinks he is a physical wreck should hear the admiral on the quarterdeck when he gets aroused. He is the gentlest man living, and yet he expects exery man to do his exact duty and when there is any shortcoming the admiral will be heard in no feeble or sickly manner. Of course, everyone in the fleet has suffered in health more or less during the year, owing to the terrific and long-maintained heat and the

enervating climate. "In that way Dewey suffered with all

the rust of us. Surgeon Page was asked if Admiral Dewey's responsibilities had not weighed heavily on him. He said in part:

"I think not; and it will be found that he has just as much nerve as the morning he fought the battle of Manila bay. He is a man who carries responsibility lightly, and does not let it break him down."

Asked if he had prescribed for Dewey of late, Surgeon Page said: "No, he has no need for prestriptions.

During the last year he has not once asked for a prescription or taken medical advice except in a casual way. If he wants anything he sends down to the ship's apothecary and gets it. His habits are so regular that he needs little or no medicine. His smoking and drinking are in perfect moderation. He eats well and sleeps well, and it is one of the recognized offenses on board ship to tramp heavily over the admiral's cabin after he has retired.'

A Postmaster Appointed.

WASHINGTON, May 25 .- George H. Hornickel was appointed postmaster at Morgan, Allegheny county.

THE EAST END.

VERY STRANGE ACTIONS

But It Was All Caused by a Family Quarrel.

HID HIMSELF IN THE CLAY MINE

Two Prominent People Done Out of Money by an Individual Who Worked a Scheme Similar to That of C. E. Allen. Promised People Positions.

A sensational story was brought to light yesterday afternoon when the fact became known that a prominent man living in the west part of East End attempted suicide Tuesday night. What caused him to act so is a matter that is not learned, as the individual himself is the only person who knows the true

Early Tuesday evening the man and his wife had a heated argument on Pennsylvania avenue that was heard by no few people. She was going east and he coming west. When they met the woman asked where he had been, and upon being told called him some hard names. He started to retrace his steps and when she asked him again where he was going he told her to the clay mine. She gathered a few stones and threw at the man, none of which struck him. He went in the mine, and as he did not come out soon the woman asked several men to search the place for him. This they did and he returned to the mouth of the mine with them. The couple then went to their home, and matters have been extremely quiet since that time.

It is said the man has not been employed for several months, and although willing to work, has not been able to obtain employment. The affair caused much talk when the actions of the man became known, and as he is failing in health, his friends fear he will do himself some harm.

MADE MONEY FAST.

Said He Would Build Houses and Then Flimmed Several People.

Some time ago a well dressed individual, claiming to represent a building association, made his appearance in East End and proceeded to make himself acquainted with all the business men of that part of the city. He made his scheme known and, as he represented the matter, his company would soon commence the erection of at least 20 houses in that part of the city, the majority of them to be located in Helana. After everything had been arranged he went to a prominent contractor in Helana and told him he would like to engage a boss carpenter to look after the work. The necessary arrangements were soon made, and as the stranger was out of car fare at that time he asked the contractor to let him have a few dollars until tomorrow. The money was handed over and nothing has been seen of him since. He then went to a prominent grocery and worked the C. E. Allen racket. He told the same story as he did to the contractor, and after purchasing some groceries had them delivered. As yet no money has been collected. The gentleman worked a firm in the city for a bill of goods and money to the value of \$95, and although attempts have been made to locate the individual they have not been successful up to the present time.

Pennsylvania Avenue.

A large force of men are engaged in grading Pennsylvania avenue previous to the work of paving the street. The street car line is at least two feet above the grade at present, but will be lowered next week. Contractor Rinehart yesterday commenced to haul brick to the street, and within a few days paving will be commenced. The curb in front of the school house has been reset, and the paving will be commenced at that point and the work will be continued east.

Heavy Mail.

Yesterday Postmaster Baird sent out two sacks of first class mail. Each sack was full and the combined weight was 74 pounds. This is the largest amount of mail that has been sent out from the postoffice for many months.

A New Home.

Plans are now being prepared for Mrs. C. E. Reazel for the erection of a five room dwelling to be built in the McDonald addition. The home will be modern in every detail.

Traded Horses.

Raymond Chambers and Doctor Davis traded horses yesterday. Both horses each has a mark less than three minutes.

SEVEN SUE THE CITY

Property Street Avondale Owners Ask Court

From the City For Losses Sustained Through the City's Changing the Grade of That Thoroughfare--Claim the Cut Was an Unreasonable and Improper One.

LISBON, May 25.—[Special]—Seven petitions were filed in common pleas court yesterday afternoon in all of which the city of East Liverpool is made defendant by reason of alleged damages to property resulting from changing the grade of Avondale street. The aggregate amount of damages asked is \$4,600. The petitions were all similar, and the owners of the property allege that in 1886 Avondale street was made a public highway, and that on the premises buildings were erected and improvements made with ordinary care and with reference to a future reasonable and proper grade of the street. In 1898 the city changed the grade and reconstructed the street, at a grade much lower than before, i. e. 25 feet. Access to the property has been greatly impaired and the value of the lots depreciated and retaining walls had to be built. The petition and amount of damages asked by each are as follows: Mary S. Collins, owner of lot 1671, \$2,000; Frederick Wilson, lot 1675, \$600; Blair Sharp, lot 1677, \$500; Albert G. Allison, lot 1680, \$500; Zadock Fowler, lot 1682 \$350; Jas. F. McGonigle, lot 1676, \$350 W. H. Brooks, 1681, \$300.

Selina Chamberlain Wants \$300 Damages From E. T. Farr, of Middleton.

LISBON, May 25.- [Special]-Selina Chamberlain, of St. Clair township, has TO AWARD THEM \$4,600 DAMAGES brought suit against Emmet E. Farr as Huston as his sureties, asking a judgment of \$300. Plaintiff says that on Aug. 20, 1897, under a writ of replevin, the constable took possession of various articles of household furniture claimed by the plaintiff as her property. She executed a redelivery bond which was approved by the justice, but the constable failed and refused to return the property. Judgment was taken by default against the plaintiff who was the defendant in the case pending before the justice, but she appealed the case to common pleas court, and afterwards all parties concerned agreed and an order of court was made, finding all the property to be the property of Selina Chamberlain.

The constable still refuses and neglects to return the property and plaintiff asks damages as above. Farr is from Middleton township, he being employed in the case because at that time there was no constable in St. Clair township.

A SKELETON KEY

Discovered by Reformatory Guards In Searching Edward Hanselman.

LISBON, May 25.- [Special] - The guards arrived from the Ohio state reformatory yesterday and took Thompson Hineman, Edward Hanselman and Charles Nelson, the Liverpool boys sentenced to two years each for burglary, to that institution. Upon searching Hanselman the officers found a skeleton key secreted in his clothes. The boys have been sulky since their attempt to break jail Friday, and it is not known how Hanselman secured the key.

Mrs. Alice R. Gamble Was Given a Hearing Yesterday Afternoon, but Her Case Has Been Continued-The Jail Is Empty. but the Police Have Work.

At 10:30 o'clock last night Chief Johnson arrested Frank Kays in Center alley on a charge of being drunk and acting disorderly. He pleaded guilty this morning, paid a fine of \$9.60 and was released.

Kays wanted to have some trouble with several acquaintances but he failed owing to the appearance of the officer. There were three other men with him, but as yet no charge has been filed against them.

Edwin Morley called on the mayor this morning, pleaded guilty to a charge of disorderly conduct and paid a fine of \$7.60. He was to be given a hearing this evening at 5 o'clock.

The trial of Alice R. Gamble, wife of Alfred C. Gamble, took place in council chamber yesterday afternoon. She was arrested Sunday morning by Officer Grim on a charge of disorderly conduct, and when the case was called the following witnesses testified: Mr. and Mrs. Gamble, Jethro Barlow, Benjamin Wyand, Isaac Eoff and Benjamin Scott for the defense and Wilford Wallace, Samuel Whittenburg, Robert Spencer, James Jones, D. J. Madden and Harry Morrow for the city.

Several witnesses told the story of the actions of Mrs. Gamble on that morning and of how she abused the officer by loud talking. When the woman was placed on the stand she said the men had testified to untruths. Attorney Vodrey had charge of the case for the defendant, while Solicitor McGarry looked after the interests of the city. After all the witnesses had been heard the case was carried over until today.

Chief Johnson has been asked by Chief of Police McDowell, of Youngstown, to lookout for Jesse Ripple who is wanted at that place very badly. A re-

ward of \$25 is offered for his capture. The jail is now empty, and while no one is in it will be cleaned.

HEROIC ACT AT MANILA FIRE.

How Sergeant Chick Helped to Save the City From Destruction.

The adjutant general at Washington has received from Major General Otis who was arrested yesterday on a charge a report submitted by Brigadier Genof cruelty to children preferred by the eral S. P. Hughes, provost marshal general of Manila, in regard to the fires started by the insurgents in Manila on Feb. 22 and 23. General Hughes calls attention to a heroic act performed by an enlisted man of the United States army. It became necessary to blow up some buildings to prevent the spread of the flames, and in referring to this

"I wish to make special mention of transaction, but they have the thanks of Sergeant Leon H. Chick, Battery H, the community for getting rid of the Third United States artillery, who was acting under the direction of Captain W. T. Wood, chief of ordnance, in placing and firing the powder cartridges. The fuse of the second cartridge failed, and the building was one sheet of flame in the lighter materials of the upper story. Sergeant Chick simply asked, when it became apparent that the first fuse had probably failed, if Captain Wood wished the fuse replaced, and on receiving an affirmative answer he entered this fire trap, renewed the fuse and caused the explosion of the cartridge, which so wrecked the building as to enable the fire to be checked with the means then at hand. This quiet discharge of so perilous a duty is, in my opinion, worthy of special recognition, and I therefore recommend Sergeant Chick for the appointment of ordnance sergeant, which I am informed is a position he seeks, and also that he be granted a certificate of merit."

In forwarding the report to the adjutant general of the army General Otis says "General Hughes might have added in his report that he was present in person with his troops during the entire period covered in this report and directed in person all operations. His tact and unceasing vigilance saved the city from conflagration and possibly preserved the lives of the inhabitants. -New York Sun.

THE MAYOR'S PLUCK.

Mayor Bough made hundreds of friends vesterday. All the world loves a fighter, a man who knows his rights and is ready and willing to stand up for them. The mayor's action in removing Whan and Grim was the topic of the town last night and on every side he was complimented, his friends warmly commending him and even those who had been his enemies expressing unstinted admiration for his display of backbone and fighting qualities.

Charles F. Bough was elected mayor of this city and he means to be mayor. The people look to him for the good government of the city, and, alertly watching the efforts of a hostile majority in council to nullify the mayor's intentions, will unite in standing back of him in his present position. They "glory in his spunk" and expect him to maintain his position to the bitter end and will be right with him straight through.

ALWAYS AGAINST.

It is a remarkable thing about the Democratic party that it is always antisomething. In '92 it was against the tariff. In '96 it was against the existing money standard, against the supreme court and against capital. Now it is anti-trust and anti-expansion. Always "anti," always "forninst the givermint."

The Democratic party as a party is the party of kickers, soreheads, cranks and demagogues. Its platform is made up of "we view with alarm," and never of "we point with pride." When the Democratic platform committee, city, state or national, needs a plank it looks around and proceeds to denounce something or somebody. The party is strong on pulling down, weak in building up. It would make a fine anarchist mob. but a mighty poor assemblage of hard working citizens and homebuilders.

Report Says Council Will Get Even With the Mayor

FOR SUSPENDING THEIR PETS

The Officers See the Police Committee of Council and Are Advised to Don Citizen's Clothes-Officer Grim Retains Counsel and Will Make a Fight-McMillan Quit and Solicitor McGarry Is Investigating,

When it became known last evening that Mayor Bough had suspended Officers Whan and Grim upon various charges it caused a small sized sensation. but there was a greater sensation in store for the people, and today it was common rumor that council would pass an ordinance abolishing the whole police force rather than see their pets turned off.

The officers after receiving notice of their suspension at once started out to see what could be done in the matter. They immediately hunted up George W. Ashbaugh, chairman of the police committee of council, to see if he could not help them out in their troubles. The news was a surprise to Mr. Ashbaugh and he communicated with the other members of the committee and a great deal of telephoning was done, and it was decided to hold a meeting today of the committee, but it was later declared

Mr. Ashbaugh looked into the matter and then informed the officers the best thing for them to do was to go home don citizen's clothes and take a rest until the regular meeting of council, when their case would be considered, as the police committee had no power in the matter and the action of the mayor was legal in every way.

Chief Johnson immediately took steps to give the city the best police protection in his power pending a settlement of the difficulty, and the only officers on the force, Messrs. White and Mahony, were detailed to go on duty at 6 p. m. and off at 6 a. m., while he would look after the city during the day. He deemed this the best arrangement, as he thought more policemen were needed at night than during the day.

At police court an examination of the register was made, and it was found that Officer Whan registered last evening at 6 o'clock, but up to noon today he had not filed his return register. Arthur Grim registered at 7 o'clock yesterday morning, but he has not yet made. his return register.

Mayor Bough when questioned about the matter this morning refused to talk and said the ordinance spoke for him.

SOLICITOR M'GARRY

Is Busy This Afternoon Looking Up the Law on the Subject.

Solicitor McGarry is busy today investigating the questions which arose in regard to the dismissal of Officer McMillan, as both council and the mayor are anxious to know just where they stand. It will require some time for him to complete his work, but when he finishes it will be known just how members are added to and discharged from the force. In regard to the suspension of Officers Whan and Grim he stated that the mayor had a right to suspend the officers and file charges at the next regular meeting of council.

ENGAGED COUNSEL.

Attorney A. H. Clark Will Look After the Case of Ex-Officer Grim.

Officer Grim yesterday afternoon engaged Attorney A. H. Clark to look after his case when it came before council. The attorney cailed upon the mayor today and learned the nature of the charges. In response to a reporter he said: "When the charges are presented to council and they set a date for hearing the case we will be there prepared to make a fight."

HE IS OFF.

Officer McMillan Notified That His Ser-

vices Were Not Needed. Last evening Officer McMillan called at city hall, but he explained to the mayor that he had decided not to make any effort to go on duty and collect his salary. The mayor told him he thought he was taking the wisest course under the circumstances.

YOUNG SURGEON'S HEROISM

Took the Knife From His Dving Father and Finished an Operation.

Dr. Reuben Ludlam, Sr., president of Hahnemann Medical college, in Chicago, and one of the most widely known homeopathic practitioners in the world, was stricken with heart disease at 5 p. m. the other day just at the critical point in an operation he was performing at the college hospital. Although Dr. Ludlam was carried from the operating room in a dying condition his son, Dr. Reuben Ludlam, Jr., who had been acting as assistant, immediately seized the instrument from his father's hands and to save the life of the patient continued the work.

Dr. Ludlam senior expired within five minutes in a room adjoining the operating room, but it was not till a half hour later that the son, the patient having come safely through the operation, went to his side. The patient was a woman. The operation was the removal of a fibroid tumor of large size from the abdominal cavity. The patient probably will recover as the result of young Dr. Ludlam's service.

Dr. Ludlam's death came without been under the anæsthetic for half an off duty on account of illness. hour and the surgeon was about to excise the tumor. 'Clad in a long white robe and instrument in hand he was bending over the patient when he cried

"I feel weak!"

He sank into a chair that was hastily placed bekind him. At first it was thought that he had fainted. He was carried into the adjoining room. Dr. Homer V. Halbert of the staff was summoned from another part of the hospital. Dr. George F. Shears, professor of surgery, was also sent for, but death came quickly and their services were of no avail.

Dr. Ludlam junior was told that his father had fainted, but professional instinct told him what really had occurred. - Chicago Tribune.

William Waldorf Tells Why He Abandons His Native Land.

VIRULENT NEWSPAPER ATTACKS.

Remembers His Father Saying of Them That "It Is Enough to Make One Wish to Abandon Such a Country!" an Opinion He Subsequently Learned to Share.

William Waldorf Astor tells why he quitted America.

The form that he uses is not "to quit," but "to abandon," which is graver. He refutes a pretty legend of New York that lands of the Astors were not for sale. He says, "So silly and narrow minded a rule could be imagined by very 'silly and narrow minded people."

He might have added, "To wit-the New Yorkers," but he has courtesy. He calls Powers, sculptor of "The Greek Slave," Power, the United States. "the poor man's country;" descendants of the colonists, men who "have risen to the level of mere tillers of the soil." He does these things in his biography of his great-grandfather, John Jacob Astor, which has just appeared, and in The Pall Mall Magazine, which summarizes the biography.

He prints a genealogy of the Astor family which is an Odyssey. Pedro d'Asterg of Castile, followed the Count of Toulouse to France and to the Crusades. He was killed at the taking of Jerusalem in 1100. Jean Jacques d'Astorg fled to Germany in 1664, at the revocation of the edict of Nantes. His grandson, John Jacob Astor, came to America in 1784. The latter's great grandson, William Waldorf Astor, has removed to England.

He begins by saying in the summary of his biography:

"I have often had occasion to remember a remark made with droll solemnity by the American sculptor, Hiram Power, at his studio in Florence 34 years ago. 'Wealth is nothing.' And I recall these words because they represent pre-eminently the characteristic and distinctive opinion of a large portion of the original American colonists and of their descendants. I failed to become a convert to Mr. Power's New England philosophy, whereof so many like phrases and obiter dicta are current in familiar American parlance."

He is ingenuous and interesting, but it is sad that he does not know better the name of Power. He tells of the original John Jacob Astor's coming to New York and gives the story of his life. Mr. Astor describes his greatgrandfather's travels, his recreations and his friends, and says:

"In America my great-grandfather's life and character have been distorted and caricatured until only an odd travesty survives. By the prese, in particuhar, with the exception of a few serious journals, he has been continually derided and reviled with that spirit of pure malignity which pursues the successful man. It is not democratic to climb so

"The value of such criticism may be estimated by what transatlantic newspapers say of one another in the heat of their occasional rivalries. At such times each can be trusted to tell the unvarnished truth about the other, and it is not infrequently made to appear that there exists no ampler copiousness of meanness and vulgarity, no grosser exhibition of ignorance, no coarser profanation of private life, of modesty, of the defenseless, or of domestic sorrow. man fills the columns of these lepers white as snow.

"And yet such is the infirmity of our nature that it is difficult for an individual to disregard the depressing influence of an babitual atmosphere of personal abuse. I remember when a lad hearing my father say of some of the most virulent of these attacks, 'It is enough to make one wish to abandon such a country!'-an opinion I subsequently learned to share.

Mr. Astor does not tell what these attacks were. One may not judge if they were graver than one that provoked his suit for libel against the Daily Mail of London. That newspaper had published a report of his having given a dinner on the trunk of a California tree. He asked for \$5,000 damages, and was satisfied on Feb. 7 with an apology.-New York Journal.

VISIT WINONA LAKE.

An Attractive Summer Haven For Rest, Recreation and Entertainment.

Winona Lake, Ind., on the Pennsylvania lines, is an attractive summer haven for persons who may desire to combine devotion, entertainment and instruction with rest and recreation. This lake is a beautiful sheet of water nearly two miles long, surrounded by romantic woodland, which has been improved into a grand summer resort with all the comforts and conveniences for a delightful sojourn. The entrance to the grounds adjoins the pretty station of Winona Lake, on the Fort Wayne

As the site of Winona Assembly and Summer School, this resort is visited each summer by many people who are invigorated in both mind and body by the instructive entertainment and health-giving recreation for which Winona is famous. The educational work of the summer school is under the supervision of prominent instructors. Fine facilities for athletic pastimes are provided, and the college halls and large auditorium are amply equipped for interesting work. The boating, bathing and fishing are excellent. The permanent buildings include many cosy cottages, where accommodations may be secured at reasonable rates. There is also a large hotel, and provision for camping out for those who may enjoy tent life. Supplies are obtainable at the large store on the grounds.

The season of 1899 will open May 15. Commencing on that date excursion tickets, with 15 day limit, will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will also begin May 15, and continue daily until Sept. 13. Excursion tickets will be good returning until

Full information about the attractions at "Beautiful Winona," its Assembly and Summer School, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines, or to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa.

Vacation Trips.

The Pennsylvania lines extend direct to places of summer sojourn along the Atlantic Ocean. Atlantic City, Cape May, Asbury Park Long Branch and resorts on the New Jersey coast are seashore terminals of the Pennsylvania system. Newport, Narragansett and summer havens in New England are reached over the Pennsylvania route via New York. The Adirondacks, White Mountains, Catskills and mountain retreats of the east are also reached through New York. Resorts in the Alleghenies are located upon the Pennsylvania route and may be reached via Pittsburg without changing cars. The Pennsylvania lines also lead to resorts in Michigan and the lake region through three gateways: Cleveland, Toledo and Fort Wayne. Full information about rates, through time of trains and the convenient manner in which summer resorts may be reached will be cheerfully furnished upon application to local passenger and ticket agents of the Pennsylvania lines, or by addressing J. K. Dillon, D. P. Agt. Pittsburg, Pa.

Beasts of the Jungle to Be Raised In America.

UNIQUE ENTERPRISE OF SHOWMEN.

Mave Secured Three Islands Off the Florida Coast and Will Stock Them With Beasts From All Parts of the World-Animals Will Live In Their Natural State.

Ringling Bros. are about to resume their vast enterprise, interrupted by the war with Spain, of establishing a farm for breeding and rearing wild the use of his name. "The largest of animals.

Two years ago they took the initial steps in this unique undertaking and went so far as to purchase a site, consisting of 1,000 acres, in southern Florida. But the purpose for which they wanted it soon became known, and the whole country thereabouts rose as one man to oppose it. It was useless for the Ringlings to set forth the measures they would adopt in the way of impregnable barriers to keep the animals within the inclosure. The people ingisted that an occasional escape could not be prevented, and they pictured all the horrors of a raging lion going about the city of Manila, and there are no seeking whom he might devour; of tigers eating their cattle and elephants and hippopotamuses trampling down their growing crops, tearing down their fences and spreading havoc and devastation around generally in large chunks. The upshot of the agitation was that the matter was taken into the courts, and the citizens secured a permanent injunction against the Ringlings, restraining them from stocking their proposed wild animal farm.

Foreseeing that the same opposition would develop in any other community, the Ringlings next conceived the idea of buying or leasing a small island off the southern coast for the purpose. Negotiations were entered into for the purchase of some small islands among the smaller Florida keys. Before the negotiations were completed war with Spain was declared, and in the prevailing excitement in that section the negotiations were suspended. They were resumed, however, after peace had been declared, and culminated in the Ringlings securing control of three islands, each containing 6,000 acres. They are eminently fitted for the object in view. They are practically isolated, being several miles distant from any other island. They are too far from the coast for the animals to be a source of danger and near enough to be in easy sailing distance. The climate is as nearly tropical as this continent affords and suit- holds.' able for animals native to the tropicals give ample water supply.

The general plan outlined will be to have the animals live in as nearly their natural state as possible. The thick undergrowth of Florida will give the lions and tigers a jungle almost like allowed their freedom, they will make their own dens and raise their young in their own ways. The surrounding sea will be a safeguard to keep them from attempting to get away, even should they be inclined to do so. To protect the aniamis from each other no two species which war on each other in their natural state will be left together on the same island. They will be divided into three classes according to their disposition to dwell together in

Expeditions are now being fitted out by the Ringlings to explore all parts of the world for zoological specimens with which to stock the farm-lions and tigers from the tropics, polar bears from the frozen north, marsupials from Australia, monkeys from South America, and so forth. After the first cost of capture and transportation the expense of maintenance will be comparatively light, but still considerable. It is expected, however, that in time the farm will not only pay expenses, but yield a handsome profit. Such animals for circuses and zoological gardens are always in demand at good prices, and acclimated beasts would be given the preference, even at the same prices, over imported animals, and the Ringlings expect to be able not only to supply their cwn menageries, but furnish them to all prospective purchasers at a profit.

The animal hospital for sick and injured beasts which the Ringlings always maintain will be transferred to the farm, and there, too, the animals with the show will winter and recuperate from fatigue of a hard season's travel.

The keepers will live on the islands in strong houses, safe from attack. Specially devised steamers will transport the animals to and from the farm. No visitors will be allowed on the islands, nor will any boats be permitted to land save those employed in transporting the animals. When it is desired to capture the animals for the show or for sale, they will be trapped as they are now in their native jungles and forests, but with a minimum of danger, as the men mals, and will lay their plans accord-The details will be arranged later. undertaking is a big one, and it will probably be five years before the farm is in full operation. - Kansas City Times.

THE FIGHTING AT MANILA. Not All the Heroes Are on the Ar-

my's Firing Line. A well known army man who was at Manila during most of the fighting around that place up to April 1, when he was ordered to St. Louis on duty connected with the recruiting service, says the story of the fighting in the Philippines will never be complete until due credit is given the brave men and women who have labored in the hospital service. "There are three large army hospitals at Manila, in addition to a number of small ones," said this gentleman, who would not consent to the three is the First Reserve hospital, which was formerly known as the Hospital Militar. It has 1,200 beds and is under the direction of Major Crosby, who is well known in St. Louis. The Second Reserve hospital, located in another part of the city, was formerly the Augustine college for young ladies. It is a very large building and well adapted to hospital purposes. Captain Frank Kiefer is in charge. The convalescent hospital, situated on Corregidor island, has the same capacity as the Second Reserve, 300 beds. The air down the bay is much more salubrious than in mosquitoes. The wharf where the sick soldiers are landed at Corregidor was built by the army.

"As soon as a man falls on the field he is looked after by the hospital corps, composed of brave and active men, who are constantly on the firing line during an engagement. His 'first aid' bandages are brought into use, and as quickly as possible he is placed on board the hospital cars and taken back to Manila. These cars are ordinary box cars of the Manila railway, with straw and blankets spread over the floor. Some of them have regular ambulance appliances also. The cars are much smaller than our box cars, being about the size of an ordinary furniture van and holding from two to six tons each. At Manila the wounded are transferred to the hos-

THE PEOPLE'S TABERNACLE.

Kansas City Pastor Proposes to Build an Institutional Church.

It will not be long before Kansas City has an institutional church that will probably cost \$100,000. Dr. S. A. Northrop, pastor of the First Baptist church, said recently that he and a number of his members were working diligently toward that end, although nothing definite as yet has been decided.

"If we can sell our present property," said Dr. Northrop, "and we have had several good offers, it is my desire to build a large institutional church on the corner of Eleventh and Broadway. I want a church where young men can come for recreation and rest when they are down in the city. I would have, of course, an auditorium for the worship of my own denomination. Then I would have a reading room, library, clubroom, kindergarten, a lecture hall and many other things that would tend to welcome the stranger and lead men to do right. This building I would keep open continnously, and in winter we would warm the cold and feed the hungry. "Over the door of the main entrance

I would have the words

" 'Tabernacle of the People.' "Beneath that I would have:

" 'Church of the People, For the

People and by the People. "Such a church would cost about \$100,000. While it is probably no more than a dream now, something is bein, done toward that end that I hope will soon culminate in something more substantial."-St. Louis Post-Dispatch.

BIG PEACE CONFERENCE

The Czar Sanguine as to Results of The Hague Meeting.

HIS FEELING TOWARD AMERICA.

Admires Principle of States Conducting Affairs Without a Standing Army - Confident That the United States Delegates Will Aid In Establishing Some Practical System of Arbitration.

While I cannot repeat directly anything the czar said to me during our interview a few days ago at St. Petersburg, it is permissible to tell America that he is in excellent spirits and full of hope for results from the peace conference at The Hague.

There is no trace in St. Petersburg of the anti-American feeling which found expression in the German delegate Stengel's pamphlet against peace.

So far from regarding war with the United States as the inevitable destiny of Europe, the czar expressed the utmost confidence that the American delegates will stand by those of Russia, France and England in securing the establishment of some definite, practical system of international arbitra-

> The czar also relieves the Americans will favor recognition of the principle of arbitration in all questions involving national honor and interest.

The tribunal which it is hoped will issue from the conference for the settlement of questions "du droit" will probably be found on the seme principles as those which have worked so successfully in the postal, telegraph and international railway bureaus at Berne, Switzerland-that is to say, a small body of jurists and practical men chosen from one or more of the minor powers would be authorized to deal with such questions in the name of and with the authority of the powers composing this conference.

The question of mediation to be proposed is simply an extension of that clause of the treaty of Paris whereby the powers agreed, in the case of the Turkish question, to invoke the mediation of other powers before fighting. By the establishment of this principle the powers would voluntarily refer serious disputes to arbitration and the mediation of such powers as they might choose.

states conducting their affairs peacefully without standing armies. While the "United States of Europe" is still far in the future, yet the czar's ideas are all tending toward that. He is in earnest about checking armaments, and he hopes for great results from the conference. It is Germany which is the stumbling block on the limitation of armaments. Fatal Cake Walking.

The death of Miss Rosa Storker, which occurred in Evansville, Ind., the other night, is said to have been due to excessive cake walking. The young lady was regarded as one of the most graceful cake walkers in the city and spent almost ever night in the pastime. A few evenings ago she participated in a cake walk and the next morning was seriously ill. A physician was called, and he pronounced the disease peritonitis and said it was caused by the young lady's frequent cake walking. It is said this is the second death in Evansville in the last six months caused by excessive cake walking. Miss Storker was a girl of 16.—Cincinnati Enquirer. THE NEWS REVIEW

The old obstacles that used to prevent the old obstacles that used to prevent the marriage of loving couples are out of date. The blood-and-thunder villian is a myth nowadays. The cruel father is only a tradition. Distance, absence and ship-wreck in these days of cheap, safe and swift transportation do not count. The new obstacle is a common sense one. It is just bealth on one side or the other, and is ill-health on one side or the other, and sometimes on both.

Men nowadays hesitate to marry a woman, no matter how beautiful, no matter how attractive, or interesting, or witty, if she is a sufferer from ill-health. All men worth having desire happy, healthy children. Any woman who will, may fit herself for the duties of wifehood and the exalted function of motherhood. Dr. Pierce's Favorite Prescription banishes all hindrance in the nature of local ill-health. It gives health, power and capacity to the delicate and important organs concerned in wifehood and maternity. It corrects all displacements, allays inflammation, heals ulceration, stops exhausting drains and soothes pain. A BOLD ASSERTION.

The Assertion Made In the Introduction to This East East Liverpool Citizen's Statement 1s Literally True.

There is only one proprietary article OUR WORK EMBRACES on the market which gives local evidence touching its merits; home proof to back up its claims; East Liverpool evidence for East Liverpool people. Statements from people we know in place of statements from strangers. That preparation is the one endorsed by Mrs. Mary Hewitt, of St. George

street, who says: "I read in the Pittsburg Press an account of some one who had been cared of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living in almost the same place, had a tendency to convince me that there must be some truth in it, and I determined to try them myself. Some years before this I had a severe attack of rheumatism; for three months I lay helpless, and after that I had trouble with my kidneys. For a year I suffered severely. My back was so bad that it felt as if I had a boil where the kidneys are. I could not bend, lean back against a chair, er reach up. I could not lie on Our Type. my back, and about every move I made caused pain. I bad taken numerous remedies, but none brought the desired relief. Well, Doan's Kidney Pills, procared at the W. & W. Pharmacy, did wnat no other remedy was able to do. I took them regularly for a short time, and found them to be all that the Pittsburg paper stated them to be. I can heartily recommend them. After using them I was rid of backache and other symptoms of kidney trouble."

It will be proposed that each power name one of its highest court judges to act as permanent arbitrator, who shall always be at the service of other powers when invited, thus effacing politics and other influences in the selection of members of the court of arbitration.
